CITY GOVERNMENT OF 1935

TOGETHER WITH THE

ANNUAL REPORTS

OF THE OFFICIALS OF THE YEAR

1934

CITY DOCUMENT NO. 46

E. L. GRIMES PRINTING COMPANY
368 CONGRESS STREET
BOSTON

AN INDEX OF THE REPORTS APPEARING
IN THIS VOLUME WILL BE FOUND
AT THE END OF THE BOOK

INAUGURAL ADDRESS BY MAYOR CHARLES A. ROSS MONDAY, JANUARY 7, 1935.

Gentlemen of the City Council and Citizens of Quincy:

In assuming the duties of Mayor of the City of Quincy for two more years, I accept formally and officially the great responsibilities that have been entrusted to me by the voters of Quincy, and dedicate myself to energetic, faithful and unselfish service to this great City. You gentlemen of the Council are also assuming certain responsibilities. If the best results are to be obtained, you, the Legislative branch, and the Mayor, the executive, must act in a spirit of co-operation and sympathy. To such co-operation I am most sincerely committed. It is my earnest hope that we may work together so that without sacrifice of individual conviction we may accomplish much of definite benefit for our City.

As Mayor of the City, it shall ever be my aim to give to your official views and recommendations the serious, thorough consideration to which they are entitled by virtue of the authority vested in you by the people. Because a recommendation originates with the Mayor, it does not of necessity follow that it is perfect and therefore not subject to constructive criticism. I shall welcome counsel and advice, because if we consider public problems carefully and without personal bias or prejudice, we cannot fail to arrive at sound conclusions. In the formulation of public policies we should keep in mind constantly the needs of the people and their ability to pay for improvements and service.

The problems which confront us this year are serious and important. Responsibilities have increased with the growth of our City, not only to the Mayor but with every one connected with the City government. These problems will require foresight, courage and energetic leadership.

Unemployment Situation

There is no need to remind you of the unemployment situation. No one can prophesy how long this condition will exist. The seriousness of the situation has been recognized in Quincy. Programs have been developed and carried forward with the thought of giving the most work possible to our citizens, yet with the greatest benefit to the City.

We must outline a further program for the construction of public buildings, highways, sidewalks, sewerage, water works and parks, so that our people will be given employment and, thereby, will be kept off our relief rolls. If the E. R. A. program is to be continued, it will be necessary for the city to arrange an additional construction program and provide sufficient funds to carry on this work.

Public Welfare

As the result of the various projects developed to relieve unemployment, augmented by the activity in seasonal occupations, expenditures for Public Welfare were reduced in 1934. All of this has not, however, resulted in any materially smaller number receiving aid, but only in a reduction in the amount needed as a supplement to their limited earnings which have been too small to support them adequately.

With the cessation of seasonal employment and the limitations of work projects, we must recognize the renewed responsibility to our citizens. It will be our aim to see that no needy person suf-

fers for the necessities of life, yet the burden on the taxpayers must also be borne in mind.

Public Schools

No more important problem confronts us today than that of providing adequate accommodations for educating the children of public schools. Several of our school buildings are overcrowded, but the one which is uppermost in our minds at the present time is the North Quincy High School, which has been filled to more than capacity for several years. Funds should be provided at once for the construction of this new addition.

An addition to the Wollaston School building is needed and should have our attention. In planning for the future growth of our schools, we should secure a site in the neighborhood of the Sailors' Home property on Fenno Street and another site on Furnace Brook Parkway.

We should make an earnest endeavor to find some method of financing a municipal stadium. Clean sports are good alike for the participant and the spectator. An investment in a stadium might well be likened to an investment in the youth of our City. It would pay dividends in the form of better health, finer character and a fuller measure of services to be rendered to the City, State and Nation when the children of today are called upon, a few short years hence, to assume the burden and responsibility of directing the affairs of business, government, and society in general.

Public Safety

Progressive improvements in the Police and Fire Departments are most desirable in order to assure the safety of the lives and property of our citizens. An outstanding accomplishment during the past year has been the installation of a two-way radio system of communication, thus bringing our Police Department to a higher point of efficiency. In order to keep pace with good practice it will be necessary this year to purchase new cars and additional equipment for this department.

Reports of the Chief of the Fire Department indicate that we must give serious consideration to the need for additional officers and men, and new apparatus. The trend in modern city development to multiple-story buildings is underway in Quincy. Already there are numerous structures beyond the reach of our present apparatus and there are several obsolete pieces of equipment which should be replaced. We have three fire stations that were built forty years ago for horse-drawn apparatus and must be rebuilt to meet the present day requirements of the department. When these needs are met, property owners may expect to benefit through the medium of lower insurance rates.

City Hospital

Our hospital has recently been examined by the representative of the American College of Surgeons in accordance with the rules of that body governing Class A Hospitals. No criticism of the institution was made by the inspector during his visit. Any suggestions that may be embodied in his written report will be given most serious consideration.

The hospital has cared for more patients than in any previous year, and the number of free patients greater than ever before.

The need for a new administration building is continually evi-

dent, together with the provision of proper facilities for maintaining the ambulance at the hospital.

City Hall

During the past year we found it necessary to provide more suitable quarters for several of the departments of the City, as those in use were very inadequate. While this has resulted in greater efficiency in all the departments, nevertheless the construction of a City Hall adequate to the needs of Quincy cannot be deferred much longer.

Taxation

In recent years tax payers have come to realize something of the problem that confront public officials in large growing cities, and have become alarmed and burdened with the heavy cost of governmental expenditures necessary to maintain the services required.

It is the hope of our administration during these next two years to further reduce the tax burden of our citizens by the careful application of efficient business methods in the conduct of our city affairs. By this action we hope to encourage the tax payers and to continue their confidence in their city and its officials.

A new period of tax history started January first, 1935, when all property is to be valued for local taxes as of the first of the year instead of April first, as in the past. Tax bills are now to be mailed to the tax payer on or before June 14, payable one-half on July first and one-half October first, with partial payments if desired.

With the advent of the new tax procedure, placing the tax bills in the tax payers' hands in June instead of October, earlier payment of tax obligations will afford the city means to carry on its functions from current funds. Thus the cost for interest on money borrowed in anticipation of taxes should be reduced with consequent saving to the tax payers.

To all the employees of the City of Quincy, I am indebted for their splendid cooperation during the past two years and I assure them of my earnest desire to cooperate with them during the coming two years. To those unpaid boards and committee members, I am appreciative for the time you have given in order to do your part toward making this a splendid city.

Confident of mutual cooperation and support, let us enter into our work assured that the Almighty Power which rules the destinies of governments will give us guidance, real peace and prosperity.

At this time, may I wish you all a prosperous and happy New Year.

CITY GOVERNMENT — 1935

MAYOR, HON. CHARLES A. ROSS

DEPARTMENT OFFICIALS

COMMISSIONER OF PUBLIC WORKS, ANGELO P. BIZZOZERO.

Secretary of Board and Superintendent of Schools

JAMES N. MUIR

The regular meetings of the School Committee are held at 7:30 o'clock P. M. on the last Tuesday of each month except July.

REPORT OF THE AUDITOR

To His Honor the Mayor and the City Council:

In accordance with the requirements of the City Ordinances, I herewith submit the annual report of the financial transactions of the City of Quincy for the year ending December 31, 1934, including detailed departmental expense schedules as reported by the several departments, together with a balance sheet showing the condition of the city as of that date.

In compliance with Section 50, Chapter 41 of the General Laws, there is appended a certificate under oath with reference to the verification of cash balances in the hands of the City Treasurer and various trustees having custody of funds.

Respectfully submitted,

GEORGE H. BONSALE,
Auditor of Accounts.

I hereby certify that I have verified, by actual count of the cash and verification of the bank balances, the cash of the City Treasurer, the Board of Managers of the Adams Temple and School Fund, and Board of Managers of the Woodward Fund and Property, and the Trustees of the Thomas Crane Public Library.

GEORGE H. BONSALE,
Auditor of Accounts.

Sworn to before me this 4th day of May, 1935.

HATTIEMAY THOMAS,
Notary Public.

IN COUNCIL
No. 128

FEBRUARY 19, 1934.

Ordered:

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1934 and ending December 31, 1934, to be expended by and under the direction of the several officers of boards as herein designated.

That the appropriation for Bonds, Interest, and Expenses of Water Department be paid from Water Receipts.

Debt Statement

Total long-term debt January 1, 1934..... \$4,290,500 00

Additions during 1934

Within Debt Limit:

Sewers	\$110,000 00	
Streets	325,000 00	
Sidewalks	150,000 00	
	<u> </u>	\$585,000 00

Outside Debt Limit:

Sewers and drains.....	\$498,000 00	
Water	60,000 00	
	<u> </u>	558,000 00
		<u>1,143,000 00</u>
		\$5,433,500 00

Retirements during 1934

Within Debt Limit:

Schools	\$173,000 00	
Sewers	85,000 00	
Streets	150,000 00	
Hospital	55,000 00	
Police station	10,000 00	
Fire station	4,000 00	
Land	14,000 00	
	<u> </u>	\$491,000 00

Outside Debt Limit:

Schools	\$120,000 00	
Sewers	18,500 00	
Hospital	15,000 00	
Southern Artery	11,000 00	
Grade crossing	15,000 00	
Water	92,000 00	
	<u> </u>	271,500 00
		<u>762,500 00</u>

Net Long-term Debt December 31, 1934..... \$4,671,000 00

(The above figures do not include \$100,000 for Sewers, \$100,000 for Sidewalks, and \$25,000 for Streets, authorized but unissued.)

Tax Title Loans

Tax title loans January 1, 1934.....		\$446,564 06
Issued new	\$366,000 00	
Renewals	206,000 00	
	<u> </u>	572,000 00
		<u>\$1,018,564 06</u>

Retired:

By redemption	\$240,564 06	
By renewals	206,000 00	
	<u> </u>	446,564 06

Outstanding December 31, 1934..... \$572,000 00

Funded Debt as of January 1, 1935

Schools	\$1,554,000 00
Sewers	1,153,500 00
Streets	922,500 00

Sidewalks	150,000 00	
Hospital	279,000 00	
Water	418,000 00	
Police station	10,000 00	
Fire station	8,000 00	
Land	98,000 00	
Grade crossing	45,000 00	
Southern Artery	33,000 00	
Tax titles	572,000 00	
		<hr/>
		\$5,243,000 00

The total debt of the city on December 31st, including both long-term debt and tax title loans was \$5,243,000.00, divided as follows:

Inside debt limit	\$2,581,500 00

EDWARD G. MORRIS,
Collector of Taxes.

REPORT OF DEPARTMENT OF HEALTH

MARCH 27, 1935.

To His Honor the Mayor and the President and Members of the City Council.

GENTLEMEN:—In order to give a clear picture of the activities of the Quincy Health Department during 1934 and because it is always advisable to be able to compare the work done with that of previous years, the custom of using the "Appraisal Form" of the American Public Health Association has been continued.

The major activities of a modern health department are enumerated and to each activity is assigned a certain number of points. A perfect score—needless to say—has never been attained by any health department. Automatically one can see at a glance the activities that need further attention and conversely those activities that are completely and efficiently covered.

This scoring system was adopted in 1927 and, with the exception of two years (1930-1931) has been carried out every year since.

Beginning in 1934, the arrangement of the different activities was changed somewhat and, accordingly, the older scoring has been forced to conform to this newer arrangement. Certain subjects have been omitted in the 1934 edition of the "Appraisal form" (viz: Popular Health Instruction, Cancer Control and Heart Disease Control). On the other hand, a certain number of points can be claimed if the Health Department is carrying on a balanced program. Because of the change in the scoring system it is not possible to compare the results attained this year with those attained last year. However, it is possible to give the comparative table of the total scoring each year, beginning in 1926.

Year	Total Score
1926	771
1927	797
1928	712
1929	746
1930	No scoring done
1931	No scoring done
1932	612.4
1933	714.2
1934	778
Possible points attainable 1000.	

APPRAISAL—1934

	Score	Possible Score
I Common Services		
A. Vital Statistics	45.00	45
B. Laboratory	45.00	60
II Preventable Disease Activities		
A. Acute Communicable Diseases.....	133.30	155
B. Venereal Diseases	40.95	60
C. Tuberculosis	82.80	90

III Activities for the Promotion of Hygiene		
A. Maternity Hygiene	75.60	90
B. (1) Infant Hygiene	90.00	90
(2) Pre-school Hygiene	53.10	90
C. School Hygiene	73.70	110
IV Sanitation Activities		
A. General Sanitation	45.60	80
B. Food and Milk	63.00	75
Total	748.05	950
Additional Credit—Balanced Program.....	30.00	50
Grand Total	778.05	1000

The scoring was carried out this year, as in most of the previous years, by Mr. Alexander Robertson, Statistician of the Health Department. No points were credited to Health Department activities if there was any doubt about the propriety of doing so.

I COMMON SERVICES

A. Vital Statistics is a problem that is well taken care of by the City Clerk's office. About one-half the credit is due the Health Department.

B. Laboratory. Actually there was a slight gain in this service during 1934, but due to a revision of the "Appraisal Form" the 1934 score does not equal the score of 1933.

II PREVENTABLE DISEASE ACTIVITIES

A. Acute Communicable Diseases. There was a gain in diphtheria immunization. Approximately 1,000 pre-school children were given the three injections of diphtheria toxoid last fall. It is far more effective to carry on a diphtheria prevention program with the pre-school group than with the school group, and in the "Appraisal Form" they give a value of 10 points to this part of the program compared to four points for immunization with school children.

For the first time since 1929, full credit can be obtained for making the recommended number of nursing visits. The actual increase in efficiency is more than is represented by the increase in points; as the standards set up in the fourth edition of the "Appraisal Form" are somewhat higher than previous editions.

A larger number of scarlet fever cases should have been hospitalized and a more extensive diphtheria immunization program should be carried out.

During late January, February and March, the City had one of its largest measles epidemic. This was not a situation peculiar to Quincy inasmuch as the same reports came from all over the country. There were very few deaths, however, in this epidemic.

B. Venereal Diseases. Clinic registration has increased and more cases that discontinued treatment came back for further treatment than in the year 1933. This section shows a loss of one point over 1933. If the 1933 form had been used there would have actually been a gain of from 15 to 20 points.

C. Tuberculosis Control. About 600 fewer visits were made in 1934 as compared with 1933, due to the fact that one of the tuberculosis nurses was on part time and that both tuberculosis nurses made emergency visits only to tuberculosis cases during the

measles epidemic; 2,096 visits were made on behalf of tuberculosis cases. Five thousand and three hundred nursing visits would have been required to gain full credit for the necessary number of visits. This is because Quincy, through its active campaign of case finding, has a very high ratio of living cases on the register per each annual death from tuberculosis. There are approximately 10 known living cases for each annual death. The so-called "Ten Year Program" for the detection of childhood cases is to be carried on from now on by Norfolk County instead of the State inasmuch as the tenth year of the State campaign has been finished. It is to be hoped that there will be no let down on the work now being carried on. Greater stress should be given to the detection of early cases of the adult type of the disease.

III ACTIVITIES FOR THE PROMOTION OF HYGIENE

A. Maternity Hygiene. This attained the best score ever. The increase in points was due entirely to an increase in the number of cases under medical supervision at prenatal conferences and to a slight increase in the number of visits per case registered.

Approximately 70 per cent of all the infant deaths in 1934 occurred during the first month of life. To cut this percentage down more emphasis than ever must be placed on adequate prenatal care.

Maternity Hygiene service is provided by the Quincy Visiting Nurse Association, co-operating with the Quincy Hospital, in managing a prenatal clinic held once a week in the Quincy Dispensary.

B. Infant Hygiene. For the first time in the history of the city a full score has been attained by this section. This is because of an increase in the number of nursing visits to infants. This does not mean necessarily that the infant welfare work done in Quincy is perfect, but it does mean that as far as the standards of the American Public Health Association are concerned that it is completely satisfactory.

Due to many requests from Squantum for a child welfare conference, one was instituted beginning in October. This conference is held once a month.

There were five deaths in the babies registered in the clinics. However, not one of these deaths was due to a disease considered as preventable. Three were from whooping-cough; one from a congenital malformation and another from pneumonia. The true test of infant welfare work in any community is whether or not the campaign of preventing deaths from nutritional disturbances is successful. There were no deaths in the registered babies from any nutritional disturbances.

Pre-School Hygiene. There was a marked increase in the scoring of this section, particularly due to the pre-school "round-up" last spring, which reached approximately 11 per cent of the children about to enter school in the fall. However, we have to admit that a lower standard was set up for this item in the new edition of the "Appraisal Form." A perfect pre-school program would ensure a careful physical examination for every child before entering school for the first time, either by the family physician or by some public health agency.

Since the first of October, 1934, the Health Department has been holding a pre-school dental clinic twice a week in the Quincy Dispensary for children of that age group needing dental repair work. If this program could be developed to a logical extent in the course of years, the number of children entering the first grade with defective teeth could be cut considerably.

Because of the improved financial condition of the city, the Health Department budget permitted the reopening of the pre-school conference last spring. This is held once a month at Woodward Institute.

C. School Hygiene. The method of scoring in 1934 was considerably different from the method in use in 1933, so that it is very difficult to compare the two years. This activity is entirely in the charge of the School Department. However, in the case of the three parochial schools, the Health Department has supervision of school health. During the last few years, in the parochial schools, there has been complete and careful testing of the hearing by means of the "Audiometer." This was loaned for the use of the Health Department by Father Quinlan, the Health Director of the Parochial Schools in the Boston Diocese.

The half-time parochial school nurse has also checked the vision of each pupil. The Health Commissioner examined practically all the pupils in the first grade and the parents were present during the examination of most of these pupils. It is highly important to have the parent present during the physical examination whenever possible. An attempt was also made to repair defective teeth noted in the examination of these first grade children.

The School Dental Program has been terribly neglected for a period of more than two years. I believe that Quincy is one of only two cities in the State where at the present time nothing is being done about the care of the school child's teeth. At the present writing, it is hoped that a start can be made in this very important phase of school hygiene. The number of defects FOUND in school examinations is unimportant. The number of defects CORRECTED is important.

In Arlington, where unusual pre-school dental activity has been carried on for approximately five years, it has been noticed that the number of first grade children noted with defective teeth has been steadily diminishing as a result of the pre-school dental service.

In the public schools there was a slight loss in the number of nursing visits. There was also a loss in the number of first grade children given health examinations due to the fact that the school physician was ill during the first part of the 1934-1935 school year.

IV SANITATION ACTIVITIES

A. General Sanitation. Here again it is difficult to compare the 1934 and the 1933 score, as there has been a number of changes in the new appraisal form. If the old form had been used, the 1934 score would have shown a gain of two points instead of a loss of eight points.

B. Food and Milk. There was a gain in this section. Additional points could be attained by a periodical check of the sterilization of eating utensils at food handling establishments.

Additional points could also be attained if 100 per cent of the milk supply was pasteurized. At it is now, 98.7 per cent is pasteurized. There should be weekly inspections of pasteurizing plants. There was no epidemic due to raw milk this year, a contrast to the year before when approximately 50 odd cases of scarlet fever was traced to raw milk from a farm outside of Quincy.

* * * *

Because of the fact that a certain number of points are given for a well-balanced program, depending on the total number of points attained in all these sections heretofore discussed, it is pos-

sible to add 30 more points to the score. This brought the total points up to 778.

In glancing over the results of the Appraisal we see two subjects in particular that stand out because of their excellence: First, Vital Statistics, for which a considerable amount of credit must be given to the City Clerk's office and second, Infant Hygiene. Both these subjects received a perfect score.

Certain subjects could be improved, such as General Sanitation, School Hygiene, Pre-School Hygiene and Venereal Disease Control. The control of Acute Communicable Diseases, Tuberculosis, Promotion of Maternity Hygiene and the control of Food and Milk Supplies show a commendable scoring. In this way (as I have emphasized in the beginning of this report) it is easy to see where an annual Appraisal of the Health Department shows activities that need more attention.

* * * *

RECOMMENDATIONS FOR IMPROVEMENTS

(1) The Quincy Dispensary, which was originally intended for only one tuberculosis clinic weekly, now has nine clinics, representing four different health activities and three welfare clinics weekly. The building is small and absolutely unfitted for its present use. In addition to the clinics, the city bacteriologist has his laboratory in the same building. A new building is badly needed.

(2) There are still inequalities in the salary given certain members of the department.

(3) At the present time, each nurse, although her duties are supposed to be specialized, has to substitute from time to time for nurses carrying on other public health activities.

The quality of public health nursing in any agency is largely dependent upon the amount and type of supervision. The need for nursing supervision is positive and is not influenced by the size or type of agency, that is, private or public, urban or rural, general or special. "Even where a specialized service is provided, and where the actual routine of the day's work of the nurse may be directed by the medical officers in charge of tuberculosis or infant hygiene, adequacy of technique and uniformity of records and procedure should be secured by nursing supervision, for the morale of a nursing staff is always higher when under the direction of a professional colleague who really understands the procedure of nursing."

Quincy has now reached a period when one should recommend generalized nursing service, as is being carried out more and more in all large cities. To do this would necessitate the employment of a nursing supervisor.

(4) I recommend the employment of a restaurant inspector in order to supervise the handling of food in the large number of restaurants and taverns situated in Quincy.

(5) The dental program should be instituted as soon as possible. A gap of two years (with no dental work for the school children) at a time when the usual family has had a sharp drop in their budget, has created a situation that will take time and considerable money to improve.

(6) The establishment of a Health Council which would co-ordinate the work of the Quincy Visiting Nurses, School Department, the Society for the Prevention of Cruelty to Children, Quincy Hospital, Family Welfare Society, Health Department and the Welfare

Department of the City, would be a desirable thing. This is because of the fact that at the present time there is necessarily some confusion and some duplication of effort.

* * * *

The Health Department has the sad duty of reporting the death of Mr. Francis Driscoll, who had been connected with the Health Department as Statistician for two years before his very sudden death. He was a faithful worker and died in the prime of life.

The Quincy Health Department again wishes to thank the State Department of Health, Quincy Visiting Nurses, Quincy Physicians, Quincy School Department, both the "Quincy Patriot Ledger" and the "Quincy Evening News," and the President and members of the City Council.

Mayor Ross has shown an active and continued interest in the work of the Health Department. The Health Department employees have also shown that they are interested in making their department better and better each year.

For this year's motto for the Health Department, let us choose this paragraph from the "Children's Charter," written by President Hoover. "For every child a community which recognizes and plans for his needs, protects him against physical dangers, moral hazards and disease; provides him with safe and wholesome places for play and recreation and makes provision for his cultural and social needs."

Any community which can satisfy the requirements in the previous paragraph must be a healthful community, and I think Quincy is healthful.

Very truly yours,

E. B. FITZGERALD, M.D.,
Health Commissioner.

REPORT OF THE QUINCY HABIT CLINIC

It is of interest as well as satisfaction to note the statistics of the Quincy Habit Clinic for the year 1934. These results are a source of even greater satisfaction when one appreciates that the prevailing economic conditions have meant increased demands on clinic services which were fulfilled, in spite of the fact that the budget did not permit an increase in the clinic personnel, beyond obtaining the services of one additional psychiatrist, which seemed imperative in order to maintain the efficiency of the clinic and to answer the community's needs.

The general outline of the clinic program has not differed from that of the previous year, in that its two main objectives have been clinical and educational.

There has been a weekly clinic held on Thursday afternoons in the Woodard Institute. The aim of the clinic's program has been to relieve children from those emotional handicaps (whether originating in the child or in his environment), to check the beginning of undesirable traits and unacceptable behavior, to assist in directing his potentialities, at the same time appreciating whatever limitations he may have and to construct in him wholesome attitudes and patterns of behavior that will enable him to competently meet the complexities of every-day life. To this end the Division of Mental Hygiene has not only provided Quincy with clinical facilities for the study of the whole child but has also provided it with an organization that coordinates other agencies and arouses their interest in the mental health of the child through the prevention and correction of personality and behavior problems. Averting difficulties rather than waiting until they have become real problems is the essence of Mental Hygiene.

The psychiatric and psychological and social investigations have continued to improve year by year, but the outstanding improvement has been the intensive therapy accomplished in a large number of cases in parents as well as children. The number of children seen is not the measure of success and real accomplishment comes only after complete and thorough study and treatment of the smaller number of cases.

Clinics maintaining such aims as do the Habit Clinics cannot undertake to study in detail all the cases referred; to do so would not only reduce the clinic's opportunities to deal with the increasing intake of cases, but would also embarrass progress in those cases where service is most needed. Therefore, in order to operate efficiently, as well as to maintain the quality of the work, it has been imperative to avoid the jeopardy of concentrated effort on those cases which were organically, socially and intellectually irremediable. The clinics might easily defeat their purpose of usefulness by attempting to do more than they can do well by concentrating on cases in which little benefit could possibly result or by doing with its own staff work which might be done equally well by other agencies. To give intensive study and treatment to other than a practically selective group would be economically as well as physically impossible. Therefore, in considering the matter of accepting cases, it becomes necessary to practice a reasonable amount of selection, and one justly asks the following questions: Firstly, does the case warrant the kind of service we have to offer. If so, is the environmental situation such as could be directed (assuming, of course, that the causative factors in the case are environmental), and are the parents intelligent and disposed to cooperate sufficiently to make this service worth while

to them. If the answer to these questions are in the negative, while we do not make a complete study of the case, we either give a consultation service, in which a diagnosis or recommendation may be made, or we refer it to some other agency whom we feel is adequately equipped to deal with the situation.

The monthly conferences with the Schools have been of material benefit and have tended toward a further diffusion of the Mental Hygiene point of view. The school and the clinics are concerned with the education of the child both as regard to personality and capacity. Because of the close relationship between the child's mental life and his education, the Division of Mental Hygiene has always had a keen appreciation of the fact that the school was a pivotal point for furthering Mental Hygiene. A teacher has a definite psychiatric function in the education of the child, not only is she in a strategic position to aid and direct in the growth of his personality, but she is also in an excellent position to recognize the beginning development of psychiatric problems. The personnel lay just claim to having aided many teachers in developing a new and broader concept of the aim of education. In situations where a teacher's attention was directed solely to the child's acquiring the prescribed amounts of subject matter with little or no regard for his development as a whole and where as a result of her restricted perspective, problems of maladjustment and even failure were manifest, a fuller appreciation of the meaning of education was given by the clinic with subsequent benefits to the child.

Educational activities have continued as an outstanding phase of the clinic's program. Lectures and formal courses of instruction have been used as the medium of educational efforts to the public. Lectures were given to various types of social agencies—Parent-Teacher Association, Teachers' Groups and Mothers' Clubs. The educational program has been an aid in influencing community thinking as well as contributing to their social welfare. It has made for a better appreciation of the value of prevention and increased awareness of early signs of behavior difficulties and has led to a recognition on the part of parents and others of the necessity for early guidance. It has been axiomatic of our educational program to urge prevention of emotional difficulties and maladjustments of children, and that guidance directed toward prevention is more successful, as well as economical, than efforts with problems of long standing. For the most part, every opportunity for contact with groups interested in child welfare was accepted, since it is an established fact that this is one means of promoting community relationships which are beneficial to the furtherance of the clinic's aims. The acceptance of a psychiatric clinic as an integral part of the community depends on the relationships which the clinic has established. The clinic accomplishes its purpose only in proportion to its ability to give parents, schools and community agencies a greater understanding of the individual child and the best methods of directing him. Then, too, the actual performance of the clinic is better understood by other agencies and they are ready to assume their responsibility for their cases, and consequently tend to become more discriminating in their requests for service, recognizing as they do the clinic's capacity and essential function.

The fact that the Quincy Habit Clinic reports the largest attendance of any of the clinics under the direction of the Division of Mental Hygiene is a real tribute to Quincy's interest and progress in the matter of mental health.

The personnel of the clinic wish to extend their sincere appreciation to the Health Commissioner, the School Department, and the Community for their invaluable cooperation during the year.

QUINCY HABIT CLINIC STATISTICS 1934

REPORT OF BACTERIOLOGIST

JANUARY 1, 1935.

DR. E. B. FITZGERALD, *Health Commissioner*.

DEAR SIR: During the past year examinations were made in the laboratory as follows:

Plate counts (milk)	656
Pus and streptococci (smears)	656
Chemical examinations (milk)	720
Ice cream (chemical)	40
Ice cream (plate counts)	40
Total examinations	2,012

Respectfully submitted,

EDWIN E. SMITH, M.D.

REPORT OF VENEROLOGIST

JANUARY 1, 1935.

Male Clinic

Treated for gonorrhoea (patients)	16
Discharged cured	5
Left town	1
Lapsed treatment	4
Remaining under treatment	6
Visits for gonorrhoea.....	250
Treated for syphilis (patients)	32
Contacts and observation	8
Died	1
Transferred to Taunton	1
Lapsed treatment	8
Remaining under treatment	22
Visits for syphilis	619
Total visits by males	877

Female Clinic

Treated for gonorrhoea (patients)	6
Visits for gonorrhoea	33
Contacts and observation	28
Treated for syphilis	20
Referred to private physician	1
Left town	2
Lapsed treatment	6
Remaining under treatment	11
Visits for syphilis	431
Total visits by females	492

Respectfully submitted,

EDWIN E. SMITH, M.D.

REPORT OF INSPECTOR OF ANIMALS

FEBRUARY 13, 1935.

DR. EDMUND B. FITZGERALD, *Health Commissioner*.

DEAR DOCTOR: The following is my report for the year 1934:

I have inspected 82 cows, all in good condition and under state control for tuberculin testing.

I have quarantined 232 dogs for biting human beings; of this number 13 positive cases of rabies were found. I consider the above information serious and a menace to public health and safety. To emphasize the above danger we have had eight positive cases of rabies since January 1, 1935. I believe and recommend, in spite of its drawbacks, that a quarantine order should be issued stating that every dog be given vaccine or be quarantined for a period of sixty days.

As a matter of illustration, our neighboring town, Milton, Massachusetts, immediately issued orders to vaccinate or to quarantine all dogs after three positive cases were reported. Since then there have been no further cases.

Respectfully yours,

EDWARD A. DEVARENNES, V.S.,
Inspector of Animals.

PRE-SCHOOL HYGIENE

Number of pre-school children in city (estimated).....	7,556
Number of pre-school children (ages 1-5 inclusive) registered at pre-school conferences	479
Number of visits to conferences.....	2,759
Number of nurses' visits to and in behalf of children.....	1,861
Number of baby boarding houses	15
Number of inspections made	269

GENERAL SANITATION

Number of sanitary inspections	768
Per cent of dwellings connected with street sewers (est.)	67

FOOD AND MILK

Number of inspections of food-handling establishments.....	1,580
Per cent of milk supply pasteurized	98.7
Number of farms producing milk	56
Number of inspections made of such farms.....	511
Number of pasteurizing or distributing plants.....	4
Number of inspections of such plants.....	97
Per cent of milk supply before pasteurization showing a plate count less than 500,000 per c.c.	100
Per cent of total pasteurized supply showing a plate count less than 50,000 per c.c.	95

REPORT OF ORTHOPEDIC CLINIC

FEBRUARY 14, 1935.

DOCTOR E. B. FITZGERALD, *Commissioner of Health, Quincy, Mass.*

DEAR DOCTOR FITZGERALD: I am attaching my report of the Orthopedic Clinic for the eight months ended December 20, 1934.

In the past year corrective measures have replaced palliative ones in all the new cases and in the old cases whenever it was possible to convince the parents of the advisability of them. That this has been beneficial is demonstrated by the marked improvement seen in individual cases in a short period of time.

Because of the nature of the cases seen in a children's Orthopedic Clinic, the period over which these patients must be treated is necessarily longer than in an adult clinic. However, with corrective treatment established as a fundamental in this clinic, I believe that we can look forward to reduction in the number of secondary deformities seen here, together with reduction in the period of convalescence and the end result should be an increasing number of patients discharged as cured.

Very truly yours,

JOHN L. DOHERTY.

The following is a report of eight clinics attended by Dr. John L. Doherty from May, 1934, to December, 1934, inclusive:

152 children have been examined—64 were new admissions, 88 for follow-up examination.

Classification of Conditions Found in the New Patients

Pronated feet	38
Pronated feet and knock knee	4
Bow legs	6
Faulty posture	3
Flat feet	12
Spastic paralysis	1
	<hr/>
	64

Classification of Conditions Found in Old Patients

Pronated feet	43
Pronated feet and knock knee	5
Bow legs	4
Faulty posture	3
Flat feet	32
Spastic paralysis	1
	<hr/>
	88

The personnel of the Health Department consists of:

Health Commissioner
 Plumbing Inspector
 Milk Inspector
 Sanitary Inspector
 Child Welfare Physician
 Assistant Child Welfare Physician
 Tuberculosis Physician
 Venereal Disease Physician
 Bacteriologist
 Orthopedic Physician
 Inspector of Animals
 Two Child Welfare Nurses
 One Contagious Disease Nurse
 One full-time Tuberculosis Nurse
 One temporary part-time Tuberculosis Nurse
 One part-time Parochial School Nurse
 One Clerk
 One Custodian for the Dispensary

REPORT OF CHILD WELFARE PHYSICIAN

JANUARY 15, 1935.

DR. EDMUND B. FITZGERALD, *Commissioner of Health, Department of Health, City Hall, Quincy, Massachusetts.*

DEAR DOCTOR FITZGERALD:—It is my privilege to submit to you the report of the Child Welfare Clinics of Quincy for the year ending December 31, 1934.

Statistics

Total Clinic Registration	2,022
Well Baby Clinics	1,744
New Registrations, 1934	814
Preschool Clinics	113
New Registrations, 1934	112
Orthopedic Clinics	165
New Registrations, 1934	137
Total New Registrations	1,063
Number of Clinics	300
Well Baby Clinics	278
Preschool Clinics	9
Orthopedic Clinics	12
Total Clinic Attendance	8,276
Well Baby Clinics	7,834
Preschool Clinics	187
Orthopedic Clinics	255
Total Home Visits by Nurses	4,257
Babies under 1 Year	2,127
Babies 1 to 2 Years	1,464
Preschool Children	397
Boarding Homes	269

The Child Welfare Clinics were held weekly in South Quincy, Quincy Center, Quincy Point, Atlantic, Wollaston; bi-monthly in Houghs Neck; monthly at Squantum.

Figures for attendance at Clinics are as follows:

Station	Day	Attendance	New Cases
South Quincy	Monday	1,378	81
Wollaston	Tuesday	1,518	90
Houghs Neck	Tuesday	531	54
Quincy Point	Wednesday	1,502	115
Quincy Center	Thursday	1,499	157
Squantum	Thursday	34	13
Atlantic	Friday	1,372	137

The Preschool Clinic was started again on April tenth and has been held once each month on the second Tuesday afternoon at Woodward School.

The Orthopedic Clinic was held monthly on the third Thursday afternoon at Woodward School. Dr. Miriam Katzeff, who has been associated with this Clinic since it was first started in 1927, resigned in April, 1934. It has been our good fortune to have had for seven years the advantage of Dr. Katzeff's special interest in the correlation of growth and development with the prevention of orthopedic defects in very young children. Since May the Orthopedic Clinic has been in charge of Dr. John L. Doherty.

The Statistics for 1934 compared with those of 1933 show an increase of 451 cases in clinic registrations, an increase of 265 new cases, an increase of 465 calls made by the Child Welfare Nurses. There were 75 more clinic sessions than in 1933. The clinic attendance was 267 less than during the previous year. This figure decrease is a logical corollary to the increase in home visits made by the nurses, since good teaching visits by the nurses in the home substitutes many times for the clinic visit by the parent. This is a most helpful form of service in the homes where there are three or four small children and visits to the clinics are difficult for the mother to arrange.

Reference of Children

During the year 282 children have been referred from the clinics to the care of local physicians, dentists, or hospital.

Referred for Medical Care	211
Referred for Dental Care	61
Referred for Hospital Care	10

The re-establishment of a clinic for dental care for preschool children is filling a need which was becoming serious. In our efforts to prepare the children with sound health for school entrance dental care is a major problem. The addition of a Dental Hygienist to the staff has been helpful in extending to parents the teaching of nutritional needs in relation to dental health.

Volunteer Help and Acknowledgments

The volunteer service as recording secretaries given by the members of the Junior Welfare League in the Quincy Center and Wollaston Clinics has been exceedingly helpful. We are grateful for their enthusiastic interest in the clinic activities.

Miss Alice G. Thompson has been for the past four years a volunteer as Recorded in the Atlantic Clinic. Her trained assistance and generosity have made this large clinic one of those most easily conducted.

Members of the Wollaston Woman's Club have assisted in the recording of weights of babies in the Wollaston Clinics each week.

Throughout the year there have been at several clinics demonstrations of food products and their value in diets for children.

We appreciate the privilege of holding clinics in Woodward School, Wollaston Branch of the Thomas Crane Public Library, Knights of Columbus Hall at Atlantic, Italian Hall, South Quincy, Methodist Church at Squantum, and the City School Buildings at Quincy Point and Houghs Neck.

The efficiency with which the very large weekly clinic attendance is satisfied depends largely upon the experienced planning of the nurses. Both Mrs. Nettie D. Fowler and Miss Mary Marr have an unusually good understanding of the problems which require help at clinics and have correlated their home visits with clinic activities in such a way that much has been accomplished for the children which would not have been possible in the short period of time allowed for the clinic conference.

I wish to thank you as Commissioner of Health, and the members of your Health Department Staff, for your understanding and co-operation in all the activities of the Child Welfare Clinics.

Respectfully yours,

RACHEL L. HARDWICK, M.D.,
Child Welfare Physician.

REPORT OF DISPENSARY PHYSICIAN

JANUARY 1, 1935.

DR. EDMUND B. FITZGERALD, *Health Commissioner*.

DEAR SIR:—Though dispensary records show a substantial increase in the total number of tuberculosis cases in the city—734 for 1934 as against 573 for 1933—a further analysis reveals many hopeful signs in the fight against tuberculosis.

For example—there were less new pulmonary tuberculosis cases. More cases are appearing at the dispensary in the early stages of the disease. We had six minimal cases during the past year—and this is a record for any one year at the dispensary. Usually they appear hopelessly advanced. Another good sign is that physicians are referring more indigent cases in the earlier stages of the disease for diagnosis and hospitalization. More cases appear voluntarily at the clinic for chest examination. Also, patients readily respond to advice to enter the hospital for treatment and readily give consent for needy childhood types to enter preventoria.

Of course, some of this increase in the number of tuberculosis cases is due to economic conditions, that is, the depression has forced into the clinic cases previously cared for by their relatives at home during prosperity. However, there is another important reason and that is the increased hope and confidence the people have in the new treatment offered by the many surgical procedures for lung collapse. This inspired confidence is truly justified in many cases.

In some cases surgical procedure cuts the time for an arrested case from 2-3 years under the old regime to eight months. After a "rib operation" cough is often quickly suppressed and sputum is free from bacilli, and hence the spread of the disease is checked. Almost all suitable cases are benefited and many are cured. Above all, it inspires confidence and promotes and encourages the tubercular patient to undergo treatment early, and this is the key to success in tuberculosis control.

We are fortunate in the fact that our county hospital is at present doing by far the greatest amount of surgical work so that we not only directly benefit, but also indirectly because more active cases seek treatment; thus hospitalization checks the spread of tuberculosis.

Another good feature noticed as a result of the confidence inspired in these patients is that they insist upon the family and relatives being examined. Thus new contacts and other cases are discovered and early treatment started.

In a word, it begins to look as if a "New Day" is at hand in the treatment and solution of the tuberculosis problem—and the taxpayers may expect some relief in the cost of tuberculosis control.

"Undernourished Clinic"

This clinic still remains our most important source of education for the prevention of tuberculosis. Here most of the "contacts" are examined and direct contact with the family results.

Thus a two-fold advantage obtains—early infection and disease pathology are discovered—and prophylactic advice given to the whole family. To carry on the pioneer work of the state the cities must depend upon dispensary clinics to control the spread of tuberculosis and as in all disease problems "prevention is the best policy." For better results upon prevention lines I would again

recommend rest periods and forced nourishment for undernourished school children and have all active hilum cases enrolled at the dispensary clinic.

"Norfolk Preventorium"

Through the agency of the Federal Government, ERA funds were obtained and a fine outdoor swimming pool and a large recreation building were added during the past year to the camp equipment.

This project added much enjoyment to the camp regime and also did away with the necessity of weekly swimming trips to Nantasket Beach. Thus more time for sun treatments was gained for the children and this new addition makes the Norfolk Preventorium one of the best in the state. Another good feature was that the city appropriated the usual \$2,000 so that we could send 50 instead of 30 children to the preventorium for intensive treatment. This appropriation should be continued because the more children we send to camp means a larger clinic attendance and consequently educational propaganda for tuberculosis prevention will be more widespread in the community.

Respectfully submitted,

C. J. LYNCH, M.D.,
Dispensary Physician.

LABORATORY*

Typhoid specimens	27
Diphtheria specimens	127
Tuberculosis specimens	276
Syphilis specimens	1,145
Gonorrhea specimens	425
Specimens of pasteurized milk	461
Specimens of raw milk (previous to pasteurization).....	16
Specimens of milk consumed raw.....	179

*All specimens excepting milk were analyzed at the Quincy City Hospital laboratory or the State Department of Public Health laboratory.

Nurses' visits made to and in behalf of infants:	
Health Department	2,127
V. N. A. (estimated)	3,400
Total	<hr/> 5,527

MORTALITY STATISTICS

There was a decrease in the mortality of 1934 as compared with 1933, the number of deaths occurring in Quincy during the year 1934 being 645 as compared with 1933, of 682. Based on the estimated population; as of July 1 (mid-year), of 82,122, these deaths correspond to a rate of 7.9 per 1,000 population. The rate for 1933 was 8.6. Correcting the deaths for "resident," that is, excluding all non-residents who died in Quincy, and including all Quincy residents who died outside the city, the number of "resident" deaths for the year was 740, corresponding to a rate of 9.0 per 1,000 compared with a rate of 9.4 in 1933.

Of the 645 occurring in the city in 1934, 316, or 49 per cent, were males.

Of the 645 deaths, 48, or 7.4 per cent, were of infants under one year of age. The average age at death fell in the group 60-64 years of age.

Nearly two-thirds (62.2 per cent) of the decedents were native born.

The largest number of deaths during any month occurred in January, when there were 76 deaths. The fewest number occurred in September when there were 37.

Diseases of the Circulatory System was the leading cause of death in 1934, the total number being 222, or 34.5 per cent of all deaths, and corresponding to a rate of 258 per 100,000 compared with a rate of 248 in 1933.

Cancer and other Malignant Tumors caused 88 deaths in 1934 compared with 79 deaths in 1933. Four of the deaths in Quincy were non-residents, but 26 Quincy residents who died outside the city had cancer given as the cause of death. There were, therefore, 110 deaths from cancer among Quincy residents during 1934 corresponding to a rate of 134 per 100,000.

Diseases of the Nervous System were the cause of 51 deaths, or a rate of 62 per 100,000 population, compared with 77 deaths and a rate of 97 in 1933.

Diseases of the Genito-Urinary System accounted for 75 deaths in 1934, the rate being 91 per 100,000 compared with 63 deaths and a rate of 79 in 1933.

Violent and Accidental Deaths in 1933 numbered 34 for a rate of 41 per 100,000 compared with 52 deaths and a rate of 65 in 1933. Automobile deaths numbered eight compared with 12 in 1933.

Diseases of the Digestive System caused 38 deaths in 1934 corresponding to a rate of 46 per 100,000 compared with 25 deaths and a rate of 32 in 1933.

Diseases of the Respiratory System were the cause of 38 deaths for a rate of 46 per 100,000. Thirty-five of the 38 deaths were from Pneumonia. In 1933 there were 76 deaths from pneumonia.

The number of deaths (together with rates) from Infectious and Parasitic Diseases corrected for "residents" is shown elsewhere in this report.

The Infant Mortality rate, corrected for residents in 1934, was 44 compared with a rate of 47.6 per 1,000 live births in 1933.

Deaths from Diseases of Pregnancy, Childbirth and the Puerperal State numbered four in Quincy and four among Quincy residents outside the city. These eight deaths represent a rate of 6.4 per 1,000 total births.

Morbidity and Mortality Rates for 1934

REPORT OF THE BOARD OF MANAGERS

To His Honor the Mayor, the President and Members of the City Council:

GENTLEMEN: The Board of Managers of the Quincy City Hospital herewith submits its report for the year ending December 31, 1934.

We have included the departmental reports made by the heads of the several departments, showing the work accomplished by these various departments during the year.

Realizing the continuing necessity of keeping expenses to a minimum, only the most necessary additions to equipment were made during the year. We have, however, requested a substantial increase in the appropriation for the equipment for the coming year as replacements which have been delayed several years should be delayed no longer. The ambulance, now eight years old, is in very unsatisfactory condition and should be replaced.

In our report of last year we called your attention to the necessity of a new Administration Building, and inasmuch as the funds were not appropriated last year, the Board respectfully requests that in this year's building program provision be made for the erection of a new Administration Building.

The total operating expenses for the year 1934 were \$332,931.80 compared with \$298,188.52 in 1933. The substantial part of this increase is due to the rearrangement of salaries on the bases of the year 1932.

The receipts from patients in 1934 were \$176,198.25, from other sources \$4,636.24, a total of \$180,834.49 as compared with a similar income of \$159,905.24 for the year 1933.

The total number of patients treated were 5,738 as compared with 5,584 in 1933.

Mr. John H. Taylor resigned on his election to the School Committee and Dr. Charles E. Herbert was appointed to fill the unexpired term.

To the Hospital Aid Associations and to all other individuals and associations who have assisted the hospital with work, gifts and donations, we express our heart-felt appreciation.

MADELINE McCORMICK,
IRVING L. BADGER,
JOSEPH M. CASHMAN,
CHARLES E. HERBERT,
JOHN W. KAPPLES.

REPORT OF THE SUPERINTENDENT

During 1934 only one class of student nurses was admitted. Of seventeen who entered training in September, thirteen have been accepted.

The number of internes has been changed to five graduate men and will be increased shortly to six. During the winter months Tufts Medical School sends two students at a time for training in special fields. Two resident student internes have been replaced by graduate men.

The position of ambulance chauffeur was changed in July from one man on call twenty-four hours to two men working twelve hours each.

The hours for special nurses were reduced in July to eight hour shifts at \$4.50. The hospital charge for nurses' meals was reduced from \$1.00 per nurse to 75c and later to 50c per nurse. Since this change more nurses have been kept busy with a decreased cost to many patients, who have employed one or two nurses in twenty-four hours.

A small waiting room for special nurses was provided on M&S III by remodelling an extra bath room. This room has been very useful, for visitors as well as nurses.

A waiting room for visitors has also been provided near the telephone switchboard. This is convenient for those who have to wait around the hospital at night.

The P. W. A. provided our children's ward with eleven oil paintings of subjects from Alice in Wonderland. While these paintings remain the property of the Federal Government we can keep them as long as they stay on our walls.

A six day week was established for all our regular employees, including nurses, during the year and seems to work satisfactorily.

We have had various E. R. A. workers throughout the year who have been helpful in many ways, especially with hand sewing.

New equipment has included two stoves in the main kitchen and a projector for the laboratory, which is helpful in teaching doctors and nurses.

In October we sent one of our laboratory technicians for a course of instruction to the State Health Laboratory. We are now a distributing center for serum for pneumonia patients and qualified to type patients in a very few minutes. We have added a volunteer technician because of the marked increase in the laboratory work which has developed in the last four months.

Impetigo which was something of a problem in the Maternity Department for a long time has been eliminated for the past year. The nurses and mothers have covered their mouths and noses when near the babies, and the doctors have worn masks and gowns.

MILDRED CONSTANTINE,
Superintendent.

GENERAL INFORMATION

Private rooms: Two visitors at a time, 11 A. M. to 8 P. M. daily.

Semi-Private: Maternity, 3-4 P. M. and 7-8 P. M. daily.

Ward patient: 2-3 P. M. and 7-7.30 P. M. daily. Two visitors at one time in the afternoon and one at night.

Children's ward: 2-3 P. M. daily.

Children under 16 years of age may be allowed to visit patients in private rooms, one child at a time.

Children under 16 years of age are not allowed to visit children or maternity patients, due to the prevalence of contagious diseases among children.

Under no condition will relatives or friends of patients be permitted in the operating room or delivery room during time of operation or delivery.

Charges (Subject to change)

Rooms—\$5.00, \$7.00 a day; with bath, \$8.00 a day.

Wards—\$3.00 a day.

Semi-private—\$4.00 a day.

Four-bed Private (when available)—\$3.50 a day.

Private bed in Children's ward—\$4.00 a day.

Private tonsil and adenoid patients in ward—\$8.00 for 24 hours.

Private room, for 24 hours—\$10.00. Additional charge if patient remains more than 24 hours.

Maternity

Private Room—\$6.00-\$8.00 a day.

Semi-private—\$5.00 a day.

Ward—\$4.00 a day.

In line with general hospital practice, all bills are payable seven days in advance. Over payments are refunded. The request for payment in advance in no way involves a question of credit but is a rule adopted in the interest of the economical conduct of the Hospital.

The Hospital reserves the right to move to the open ward a patient occupying a Private or Semi-Private room who fails to pay his bill for Hospital service within 72 hours after presentation.

Extra charges are made for Laboratory work, Delivery Room, Physiotherapy treatments, X-rays, board of private nurse, special medicine or vaccine, etc.

The charge for Private Room includes board and hospital nursing but not medical or surgical or obstetrical attendance, which must be arranged for with attending physician.

Ward rates include board, bed, nursing care and the professional services of the members of the Hospital Staff on duty at the time the patient is in the Hospital. The doctors receive no remuneration for their services to ward patients.

Private Nurses

Arrangements for private nurses should be made through the admitting office. The salary of the private nurse is paid direct to her by the patient or relatives. The Hospital makes a charge of \$.50 a day for her board. No reduction is made in case the nurse, for any reason, has some of her meals away from the Hospital.

A list of registered nurses, who are disengaged, is kept at the Hospital and may be consulted at any time. Graduates of other Hospitals are not called for duty in the Hospital when a Quincy

City Hospital graduate is available. Graduates of the Quincy City Hospital know the routine and are better able to cooperate with it. The Hospital feels that its graduates who stay in and around Quincy should be encouraged in so doing, as the citizens of Quincy are thereby assured adequate nursing care when it is needed.

Private patients may be cared for only by members of the Active and Courtesy Staffs. Patients are admitted to the ward upon recommendation of any physician.

Patients may be visited by clergymen of their selection and, so far as possible, the Hospital will grant the performance of any desired religious rites.

Accident or emergency cases are received in the Accident Room at any time. All out-of-town accident cases must have a private physician who is a member of the active staff.

Patients suffering from mental or chronic diseases are not admitted to the Hospital.

Contagious cases are not admitted to the Hospital.

Whenever a patient is removed from the Hospital without the approval of the attending physician or surgeon, the Superintendent shall require from the person assuming the responsibility of such removal a written statement signed to that effect.

In case of operation on minor, permission to give ether must be signed by a parent or guardian.

Telephones

There are telephone connections in all Private Rooms except Rice II. Instruments may be installed with permission of the attending physician. Toll calls according to rates.

MISCELLANEOUS INFORMATION

What to Bring

Private patients entering the Hospital should bring with them nightgowns, bathrobe, slippers, comb, tooth brush and tooth paste. Maternity patients are requested not to bring clothing for the baby to wear in the Hospital.

Valuables

Money and other valuables must be deposited in the Hospital safe; otherwise no responsibility will be assumed.

Radios

Patients are allowed to have radios in rooms, but they must be kept quiet so as not to disturb surrounding patients. A charge of \$.50 a week will be made for each radio.

Library

The Thomas Crane Public Library maintains a branch at the Quincy City Hospital. Books are obtainable from the Librarian who visits each floor between 2 and 5 P. M. on Mondays, Wednesdays and Fridays.

Suggestion

It is requested that any suggestions for improvement of service be made at the Superintendent's office before the patient leaves the Hospital.

REPORT OF THE QUINCY CITY HOSPITAL MEDICAL AND SURGICAL STAFF

During the year 1934 the Staff has continued to carry on the work of the various departments of the Quincy City Hospital, and has done its work well.

DANIEL B. REARDON, M.D.,
President of Staff of Quincy City Hospital.

REPORT OF THE SCHOOL OF NURSING

For the past two years, because of the oversupply of nurses, we have not admitted any students to the Training School. The nursing situation this year seemed to justify us in accepting a new class, and seventeen probationers entered in September—of these thirteen have been accepted. Eight senior students remain in the hospital, some of whom are away at affiliating schools. There is no intermediate class. Therefore, most of the nursing care is given by graduate nurses.

The admission of a new group of course necessitated two full time instructors.

Our graduation day was June 14, with eleven students in the class. All of them are now employed here.

The Hospital Aid Association was unable this year to give the scholarship for the four months' course in Public Health Nursing at Simmons College. Several of our graduates are taking courses at Boston University; others are taking the short courses at Simmons College in Ward Administration and Ward Teaching.

Respectfully submitted,

HELEN GIDDINGS,
Acting Superintendent of Nurses.

REPORT OF THE X-RAY DEPARTMENT

The work of the X-ray Laboratory has progressed very smoothly during the past year, with Rebecca M. Philbrick continuing as chief technician. Outside of her routine duties she has found time to instruct another nurse in the technical work of the Laboratory in order that she might be trained to act as alternate in case of sickness or to help whenever the stress of work requires it. Both have cooperated very nicely with doctors and patients, and both have done a great deal to make the Laboratory a valuable adjunct to the hospital.

Very few changes have been made in the equipment of the Laboratory, as the machines now in use are adequate to take care of all the work. On the motor driven tilt table, however, an addition has been made which helps materially in reducing certain types of fractures of the lower extremities.

The department has now had the services of a stenographer for a full year, and her highly efficient efforts have simplified the clerical work of the Laboratory by making the records more easily

accessible, and transmitting the reports to the doctors in the shortest possible time.

The following is the statistical report of the cases seen in the X-ray Department during the year 1934:

Out-patients	1,108	
House patients	1,967	
		<hr/>
	3,075	
Neo-Skidan	6	
Deep therapy	47	
G. I. tract	204	
G. U. tract	116	
Gall bladder	102	
Upper extremities	623	
Lower extremities	585	
Skulls	206	
Noses	27	
Jaws	25	
Chests	534	
Pelvis	121	
Spines	154	
Teeth	71	
Barium enemata	63	
Ribs	46	
Sinuses	34	
Mastoids	38	
Sternum	1	
Foetus	11	
Reductions under fluoroscope	7	
Pyelograms	50	
Eyes	4	
		<hr/>

		<hr/>
Grand total		3,192

In all things pertaining to the Laboratory, I have had the hearty cooperation of the Administration and Staff, for which I wish to express my appreciation.

Respectfully submitted,

CHARLES WHELAN, M.D.

REPORT OF THE PATHOLOGY DEPARTMENT

The following is the report of the Clinical and Pathological Laboratory of the Quincy City Hospital for the year 1934.

Compared with 1933 the total number of examinations showed a moderate increase, especially the surgical pathological specimens and the Ascheim-Zondek tests for pregnancy.

The percentage of post mortem examinations of the total deaths was 25%, which is well above that required by the American College of Surgeons.

The increased service rendered by the laboratory to the hospital and the community has thrown considerable strain on the small, technical force, and it is hoped that this may be increased in the coming year in order that we may maintain the high standard which has been established.

I wish again to call attention to the fact that the laboratory has available, at all hours, the biological products of the State Department of Health for all the doctors in the city who wish to avail themselves of this service.

During the past year the State Board of Health has approved our laboratory for pneumococcus typing and the distribution of antipneumococci serum for early cases of pneumonia.

The following is a detailed report of the specimens examined in the laboratory during the year 1934.

FRANCIS P. McCARTHY, M.D.

Report of the Clinical and Pathological Laboratory of the Quincy City Hospital during the year 1934:

Urinalyses	8,524
Kidney function tests	114
White blood counts	1,384
Red blood counts	877
Hemoglobins	897

Autopsies	66
Basal metabolic rate	122
Total	16,681

FRANCIS P. McCARTHY, M.D., *Pathologist.*

REPORT OF THE WOLLASTON BRANCH HOSPITAL AID ASSOCIATION

The Wollaston Branch Hospital Aid Association will close its 1934-1935 season on the first Thursday of June, 1935. To date, meetings have been scheduled on the first Thursday of each month with an average attendance of nine members. At a convenient hour, a short business meeting is held, before and after which, the time is spent in making necessities for the hospital.

Respectfully submitted,

MRS. FRANK S. CROFTS,
President.

QUINCY HOSPITAL AID ASSOCIATION

As the sewing for the hospital, formerly done by the Hospital Aid Association, has been wholly taken care of by the P.W.A. and E.R.A. workers, the regular monthly meetings have been discontinued.

Only two yearly meetings are now held. The regular donations of magazines for the nurses and men's wards have been given as formerly.

At Christmas time small gifts were sent to each patient in the public wards, and also in the children's department.

SUSANNE C. BRESLYN,
President.

REPORT OF THE HOSPITAL LIBRARIAN, 1934

When the Thomas Crane Public Library extended its service to the Quincy City Hospital in October, 1925, with a nucleus of about 200 books it was with the hope of pioneers in any venture, that the service would supply a need. Frankly, I am sure that it has.

The service continues steadily, with the tri-weekly visits of the librarian to the hospital where she distributes books and magazines to all patients who wish for them, and supplies any book from the main library that the borrower wishes.

There is a constant call for popular magazines which are supplied by the members of the Quincy Hospital Aid Association.

There are 974 books in the permanent collection at present, an increase of 78 volumes over last year. The collection contains 686 adult fiction, 151 juvenile fiction, 47 adult non-fiction and 90 juvenile non-fiction. Of this number 34 are books in the Finnish and Italian languages.

The total circulation for the year 1934 was 9,877 books.

Adult fiction.....	6,915	Non-fiction.....	1,155
Juvenile fiction....	1,394	Non-fiction.....	413
Total, 9,877.			

The above figures show a loss of 678 books as compared with the circulation of 1933. The largest circulation was shown in the month of January, March, and October, when the number of books went as high as 1,107 in January, the smallest was in December at 570 books.

Types of illness usually explain a loss or gain, rather than the population in the hospital. Persons with infectious diseases are not supplied with books from the regular collection, although the librarian often distributes gift magazines to such patients and then the magazines are destroyed. The latter are not counted in the circulation. Thus a sparsely populated ward of persons suffering from broken legs will show a large circulation when a full ward of pneumonia patients will show nothing.

Respectfully submitted.

ZAYMA CONNOLLY,
Librarian.

Duodenitis	2
Enteritis	3	1
Gastritis	9
Gastro-enteritis	7	2	1
Hemorrhage, intestinal	1	1
Obstruction, intestinal	9	8	4	2
Paralytic ileus, traumatic	1
Ptosis, intestinal	1
Ruptured intestines	1	1
Stasis, intestinal	2
Toxemia	8	6	2
Ulcer	19	2	1
Section XXV. Diseases of the Liver and Biliary Tract				
Adhesions	1	1
Ascites, cirrhosis	1	2
Cholecystitis	63	1	14
Cholelithiasis	7	1	22	1
Cirrhosis of liver	4	1	1
Hepatitis	1
Hypertrophy of liver	1
Jaundice	3
Rupture of liver	1
Section XXVI. Diseases of the Pancreas				
Pancreatitis	1	1
Section XXVII. Diseases of the Abdomen and Peritoneum in General				
Adhesions	1	1
Ascitis	3
Hernia	80	2	4
Peritonitis	5	2	6	10
Relaxed abdominal ring	1
Sinus, abdominal	2

Section XXVIII. Diseases of the Rectum and Anus				
	No.	Deaths	Second-ary Diag- nosis	Second-ary Deaths
Fissure in anus	4
Fistula in ano	8	...	2	...
Hemorrhoids	10	...	5	...
Proctitis	1	...
Prolapse of rectum	2
Pruritis	2
Ulcer of rectum	1
Section XXIX. Diseases of the Larynx				
Laryngitis	2	...	2	...
Paralysis of larynx	1
Section XXX. Diseases of the Trachea and Bronchi				
Asthma	10	...	2	1
Bronchiectasis	1
Bronchitis	15	...	7	...
Tracheitis	2
Section XXXI. Diseases of the Lung				
Anthracosis	1
Atelectasis	1
Congestion of lungs	1	...	3	...
Edema of lungs	3
Empolism, pulmonary	3	1
Emphysema, lungs
Foreign body in lung	1
Infarct of lung	1
Pneumoconiosis	1
Silicosis	1
Section XXXII. Diseases of the Pleura and Mediastinum				
Empyema	4	1	5	...
Hydropneumothorax	2
Pleurisy with effusion	3	1	2	...
Pyopneumothorax	1
Section XXXIII. Diseases of the Kidney and Ureter				
Calculus, renal	10	...	1	...
Calculus, ureteral	5	1	1	...
Colic, renal	4	...	1	...
Cystitis	17	2	4	1
Double kidney	1
Hematuria	1
Hemorrhage, renal	1
Hydronephrosis	3	...	3	...
Kinked ureter	6
Dilated ureter	1
Nephritis	20	8	7	19
Nephrolithiasis	1	1
Nephroptosis	1
Neurosis, gastric	1
Obstruction	5
Perinephritis	1	...
Polycystic kidneys	2

	No.	Deaths	Second- ary Diag- nosis	Second- ary Deaths
Ptosis, kidneys	1
Pyelitis	36	1	6
Pyelonephritis	4	1	2
Pyonephrosis	2	1
Pyuria	1
Stricture, uretal	1	1
Uremia	1	2	1	6
Urethritis	2
Section XXXIV. Diseases of the Bladder				
Calculus, vesical	1	2
Cystitis	2	1
Fistula, rectal	1
Retention of urine	2	1
Section XXXV. Diseases of the Urethra,				
Male and Female				
Caruncle of urethra	1
Stricture, urethra	1
Section XXXVI. Diseases of the Male				
Generative Organs				
Penis	22	1	9
Prostate	24	4	2
Scrotum	12
Testicle	4	2
Section XXXVII. Diseases of the Female				
Generative Organs				
<i>General and Functional</i>				
Dysmenorrhea	3
Laceration, pelvic floor	3	1
Leucorrhea	2	1
Menorrhagia	5
Metrorrhagia	1
Pelvic inflammation	14	1
<i>Relaxed pelvic floor with</i>				
Cystocele	3
Procidentia	1
Prolapse, uterus	2
Rectocele	3	3
<i>Fallopian Tubes</i>				
Salpingitis	25	7
Stenosis of cervical os	2
<i>Ovary</i>				
Cyst of ovary	23	15
Oophoritis	1	6
<i>Uterus</i>				
Anteflexion	1
Cervicitis	1	4
Cystocele	3	1
Ectropion of cervix	1
Endocervicitis	6	3
Endometriosis	2
Endometritis, hyperplastic	37	5
Erosion of vervix uteri	5	1
Fibrosis of uterus	11	6

	No.	Deaths	Second- ary Diag- nosis	Second- ary Deaths
Hydatid cyst	2
Hypertrophy, uterus	1	1
Laceration, cervix uteri	14	13
Menorrhagia	4	1
Metrorrhagia	10	2
Moles of uterus	1
Prolapse	4	1
Retroflexion, uterus	1
Retroversion, uterus	12	12
<i>Vagina</i>				
Atresia of vagina	3
Cystocele	3	1
Rectocele	1
Vaginal scar tissue	1
Section XXXVIII. Puerperal State				
Abortion	46
Hyperemesis gravidarum	4
Mastitis	1
Miscarriage	101	1
Parturition	816	2
Newborn	775	44
Placenta previa, ruptured	1	1
Pseudo labor	22	6
Pregnancy, extra uterine	2
Prematurity	4	7
Stillborn	11
Vomiting of pregnancy	9
Toxemia of pregnancy	2	5	1
Section XXXIX. Diseases of the Breast,				
Male and Female				
Mastitis	3
Section XL. Anaphylaxis				
Asthma	2
Serum Sickness	3
Section XLI. Abnormalities of Urine				
Anuria	1
Section XLII. Ill-Defined or Unclassified Diseases				
Anasarca	1
Amuria	1
Debility	1
Diagnosis deferred	18
Exhaustion	2
Hemorrhage post-operative	11	2
Immersion	1	1
Ingrowing toenail	9	2
No disease	12
Paralysis, hysterical	1
Serum sickness	3
Shock	2	1	2	2
Suicidal attempt	1

Sergeants

Anthony Caperci	James W. H. Kemp
John M. Casey	William F. McIntyre
Henry F. Corbett	Henry F. Riley
William Ferrazzi	Joseph F. Sweeney

Patrolmen

Walter A. Adams	Joseph H. Erwin
Albert J. Ames	Thomas J. Fallon
Joseph Belanger	George W. Fay
Joseph W. Benn	Joseph L. Ferguson
Thomas J. Brennan	Charles L. Ferrazzi
Walter R. Buckley	Daniel J. Fitzgerald
John E. Buell	John J. Fitzgerald
Patrick A. Byron	Joseph E. Fitzgerald
George M. Cahill	James A. Flaherty
Harold A. Cain	John J. Flaherty
Alfred J. Cappellini	Joseph P. Flaherty
Frank C. Carullo	Dennis L. Ford
Daniel J. Collins	James E. Ford
Jeremiah J. Connelly	Lawrence J. Galvin
Jerome P. Connelly	Angelo P. Gaudiano
Michael F. Connolly	James J. Gilmartin
Tilden Crooker	Philip J. Grady
William E. Crooker	Joseph P. Griffin
Edward R. Cruise	Leo J. Hannon
Stephen J. Cullen	Richard N. Hart
Edmund K. Cunniff	William J. Hebert
Arthur M. Curry	Charles O. Hinchon
David E. Curtin	Ernest W. Hodge
John H. Daniels	John J. Hughes
George F. Denneen	Joseph F. Hughes
William J. Devine	Chester N. Inman
Jeremiah Dinneen	Fred L. Jones
John P. Duffy, Jr.	Gaudias J. Joubert
Thomas J. Duffy	Thomas U. Kantola
John J. Erwin	Philip F. Kelly

Thomas F. Kerwin	George L. Ross
John Looby	John R. Saville
James A. D. MacKay	Frank L. Schaller
Timothy F. McAuliffe	William N. Schaetzl
Francis X. McDonald	Carl I. Seppala
Walter F. McKenna	John J. Sheehan
Thomas F. McNally	William J. Smith
Francis J. Mullen	James J. Sullivan
James J. Mullin	John J. Sullivan
John O'Brien	Clarence B. Tarr
James O'Connell	Alexander D. Thompson
John O'Connell	Andrew J. Thompson
George E. Ogle	Thomas J. Thompson
Leonard Palmisano	Henry W. Thorne
Joseph C. Pangraze	Frank W. Vallier
Joseph L. Paradise	Jeremiah J. Walsh
Harry P. Pitts	William C. Wright
Patrick J. Quinn	John E. Wuerth
Everett J. Reid	George L. Wyman
Edward G. Riley	Fred E. Young
Joseph A. Rogers	John B. Zanotti

Reserves

Laurence J. Broderick	Francis C. Hebert
William Carullo	Robert E. Kelliher
Walter W. Cobe	Ralph R. Lewis
William H. Corcoran	Wilfred C. Lewis
John S. Cryan	Joseph W. Lind
Guido R. DiBona	Daniel McAuliffe
William F. Dillon	Alexander McDonald
Daniel H. Ford	Norborth W. McKearney
Bruno Giudici	Thomas J. Scanlon
Edmund F. Genero	John O. Seller
Harold L. Tobin	

Pensioned

Claes A. Broberg	Michael F. Donovan
Edward J. Curtin	James W. Murray
Jeremiah D. Dhooge	George F. Phillips

Arrests by Months for Year of 1934

Month	Arrests	Males	Females

Conclusion

The addition of the Two-Way Radio to the equipment of the Department was the outstanding event of the year and it has increased the efficiency of the Department very materially.

The full measure of the value of the radio in the work of this Department cannot be estimated at this time, as new examples of its usefulness are being brought out almost every day.

Three members of the Department, Lieutenant Edward Johnson,

Sergeant Daniel M. Shea and Patrolman William I. Bjornholm, died during the past year.

Two pensioned members, Sergeant Michael F. Canavan and Patrolman John P. Duffy, also passed away.

These men were all good police officers and their loss is keenly felt by us all.

In conclusion I wish to take this opportunity to thank His Honor Mayor Charles A. Ross and the members of the City Council for their helpfulness and consideration in dealing with the affairs of the Department.

I also wish to express my appreciation for the consideration shown to the Department and its members by District Attorney Dewing and the members of his staff, also to the Justices of the District Court, together with the Clerks, Probation Officers and Court Officers, who have all been very helpful.

I also appreciate very highly the devotion to duty and the loyalty to the Department and to me, which has been shown by the actions of the various members of the Department during the past year.

Respectfully submitted,

ERNEST H. BISHOP,
Chief of Police.

REPORT OF FIRE DEPARTMENT

JANUARY 1, 1935.

HON. CHARLES A. ROSS, *Mayor, City of Quincy, Mass.*

DEAR SIR:—I respectfully submit the annual report of the Fire Department for the year ending December 31, 1934.

Fire Alarms

During the year there were 1,019 alarms.

Bell alarms	488
Telephone alarms	496
Still alarms	35
False alarms	143
Reported fires	11
Multiple alarms	6
Increase in alarm over 1933.....	201

Central Station responded to 515 alarms:

215 bell, 286 telephone, 9 still.

Wollaston Station responded to 333 alarms:

184 bell, 129 telephone, 20 still.

Atlantic Station responded to 245 alarms:

81 bell, 136 telephone, 28 still.

Quincy Point Station responded to 162 alarms.

82 bell, 26 telephone, 18 still.

West Quincy Station responded to 189 alarms:

88 bell, 69 telephone, 3 still.

Houghs Neck Station responded to 121 alarms:

65 bell, 40 telephone, 16 still.

Total number of feet of hose laid, 114,240.

Headquarters laid 48,300 feet.

Wollaston laid 16,800 feet.

Atlantic laid 21,800 feet.

Quincy Point laid 13,900 feet.

West Quincy laid 7,000 feet.

Houghs Neck laid 6,400 feet.

Total number of feet of ladders raised, 6,467.

Total number of gallons of chemical used, 925.

Total number of hours absent from quarters, 1,134.

Number of hours engines pumped, 116 hours, 45 minutes.

Booster pump lines used, 376 times.

Building inspections made, 16,481.

Number of hours at drill, 264.

Hydrants in use 257 hours, 25 minutes.

Flood Light Truck Operations

Number of alarms answered.....	244
Specials calls	6
Special drills	6
Acetylene gas tanks used	2
Safety lamp used	3
Inhalator used	1
Tanks of oxygen used	2
1000 watt light used 61 hours, 40 minutes.	

500 watt light used 95 hours, 10 minutes.
 300 watt light used 29 hours, 40 minutes.
 250 watt light used 63 hours, 45 minutes.
 Electric saw used 2 hours, 30 minutes.
 Number of feet of wire used in above operations, 18,895.

Valuations, Insurance and Losses

Value of property involved.....	\$2,349,866 00
Insurance on same	1,907,419 00
Loss insured and uninsured	296,028 86
Insurance loss	244,373 06

Fire Loss by Months

Month	Buildings	Contents	Losses
January	\$9,490 91	\$3,116 00	\$12,606 91
February	16,915 25	4,504 68	21,419 93

June	3,558 00	865 00	4,423 00
July	12,570 00	23,550 00	36,120 00
August	3,095 00	1,537 00	4,632 00
September	1,425 38	750 00	2,175 38
October	5,939 00	1,375 00	7,314 00
November	13,253 49	3,561 00	16,814 49
December	13,342 00	58,582 00	71,924 00
Totals	\$186,651 48	\$109,377 38	\$296,028 86

The fire loss for the year of 1934 was exceedingly high, due chiefly to the fact that the loss sustained at six major fires was greater than the total loss for the entire year of 1933.

On February 25th a two and one-half story dwelling house of frame construction at 22 School street caught fire and upon the arrival of the apparatus the upper section of the building was heavily involved with fire. Due to the fact that the fire had attained great headway before discovery, the loss to the building and contents amounted to \$11,286.11.

On May 25th fire was discovered on one of two passenger boats tied together at the dock of the Quincy Yacht and Dry Dock Co. on Town River. Upon arrival of the apparatus it was discovered that a watchman employed on the boats had cut the boats loose, allowing them to float out into the stream, and the fire, being inaccessible to hose streams, destroyed both boats, with a loss of \$45,000.

On July 17th a fire occurred at a polishing shop at 6 Penn street, causing a loss of \$26,853. Due to the late discovery and inferior construction, the building was totally destroyed. Adjoining this building was a brick storehouse used by a wholesale grocer. The intense heat from the polishing shop fire caused this building to catch fire and also caused the sprinkler system to operate, thereby causing damage amounting to \$12,698. The large loss sustained was due to the products stored in the building being susceptible to damage from water.

On November 11th the department responded to an alarm for a fire in an apartment house at the corner of Hancock and Willet streets. Two floors of the building were involved upon the arrival of the apparatus and most of the fire was confined to the interior of the building. There was considerable damage to the building

and contents, as the department was obliged to use heavy streams of water to extinguish the fire. The loss sustained was \$12,094.

Delayed alarms are an important factor in large loss fires. It is obvious that fire departments, no matter how efficient, cannot overcome the handicap of delayed discovery and delayed notification. An example of this occurred at the Grossman Lumber Yard on the morning of December 30th. The fire evidently originated in a building of large area and of frame construction and extended to piles of lumber in the yard. The unfavorable weather conditions and the large amount of burnable material present were other factors tending to cause a loss of \$59,135.

The total loss at the above fires amounted to \$167,135.11.

Total loss for 1934.....	\$296,028 86
Total loss for 1933.....	147,785 54
Increase	\$148,243 32=100.2%

Responses to Alarms

Permits granted for outdoor fires	677

Cash received from—Sale of old tires, recharging of extinguishers, fees from fireworks permits, court fine for false alarm, \$144.05. Paid in to City Treasurer.

During the year the department lost one permanent man and one pensioned member. In the death of Christopher Oliver, who passed away on November 8th, the department lost one of its most loyal and efficient members. He had given many years valuable service to the department, both as call man and of the permanent force; was a highly respected member of the community in which he lived, and had the respect of the officers and men of the department. His passing is deeply mourned by all who knew him.

Charles Hayden, a faithful member of the department for many years, passed to his eternal reward on May 6th after a short illness. He retired from the department on pension in 1928 after serving many years as call and permanent man. He was a citizen of the highest type, an excellent fireman and admired by the members of the department and a host of acquaintances.

The increase in alarms during the year was due to many calls received for grass and brush fires. In past years the department was assisted by men from the Welfare department in burning over vacant plots of land. This year we were unable to burn over tracts due to the fact that no help was sent to us to assist. As the department operates with a limited number of men, it was necessary to let many places go unburned.

The department received many calls for flooded range burners during the year. Very slight loss resulted from this type of fire. The burners in the main were found to be properly installed and

the principal cause of the burners flooding was in the careless operation by the owners.

During the year the department answered 143 false alarms representing an increase of 57 over 1933. In an effort to stop the sounding of false alarms the department placed notices on each fire-alarm box warning persons of the danger of sending in a false alarm and also the penalty for the same. It is hoped that the placing of these notices on the boxes will produce favorable results during the coming year.

The practice of sending members of the department through the business and mercantile districts of the city is still being continued. The inspectors are trying hard to make the proprietors and clerks in the stores "fire conscious," and are continually calling to their attention conditions of a hazardous nature that might cause fire. Managers and officials of factories are instructed in the proper storage of inflammable liquids, proper placing of fire fighting equipment and the importance of periodical inspection of the same, and the necessity of providing self-closing metal receptacles for oily rags, waste, etc. In most cases the inspectors are received cordially, as their advice and knowledge are appreciated.

Many calls are received from doctors for an inhalator, and in most cases the Deputy Chief of Department responds. Many times the inhalator was successful in saving a life and in other cases the patient was so near death the use of the inhalator proved of no avail.

Recommendations

The following recommendations are respectfully submitted for your consideration:

That eight captains be added to the department and the vacancies of lieutenants promoted to captains be filled, so that each piece of apparatus would be properly officered. This would provide for ten captains and twelve lieutenants in place of the present personnel of two captains and twelve lieutenants. Provided that the vacancies of the men promoted to the position of lieutenant were not filled, this change could be made at a total cost of twenty-four hundred dollars per year.

That ten privates be added to the department and at least six of these be assigned to the ladder truck at fire headquarters, three men on each platoon. This truck has a large running card, being the first truck to reach the high value district of the city. It is also the first truck to arrive at the Quincy City Hospital, two convalescent homes, thirteen school houses, and many other important buildings. Although all ladder trucks in this city are undermanned, I believe that at least this truck should be adequately manned.

That pumping engine be purchased each year until three engines that have been in service for sixteen years have been replaced.

That an eighty-five foot aerial ladder truck be purchased, as the present extension ladders now in service will not reach the roofs of many apartment houses, schoolhouses and other buildings in this city.

That a new car be purchased for the use of the deputy chiefs. The car now in use has had a great deal of hard service and should be replaced.

That three new fire stations be constructed to replace the present fire headquarters and the stations located at West Quincy and

Quincy Point. These stations were built forty years ago and were suitable for horse-drawn apparatus and call men, but are entirely inadequate for the present-day needs of the department.

In conclusion I wish to express my sincere thanks to His Honor the Mayor, the City Council, the various city departments, and to the officers and men of the fire department who, through their zealous and untiring work, have earned my sincere thanks.

Respectfully submitted,

WILLIAM J. SANDS,
Chief of Fire Department.

REPORT OF FIRE AND POLICE SIGNAL DEPARTMENT

JANUARY 1, 1935.

HON. CHARLES A. ROSS, *Mayor, City of Quincy, Quincy, Mass.:*

DEAR SIR:—I respectfully submit the annual report of the Fire and Police Signal Department for the year ending December 31, 1934.

Personnel of Department

Superintendent, Thomas J. Smith

Maintenance Men

George N. Leonard
Richard Williams

Patrick H. Reddington
George B. Howie

Fire Alarm

A major portion of the past year has been occupied with keeping pace with various public service companies in transfer and new construction work in all sections of the city, plus the regular routine.

Fourteen miles of wire with crossarms and hardware were installed in extending and replacing various circuits to accommodate changing conditions.

The cable system has been augmented with the addition of five thousand three hundred and fifty feet of multiple conductor lead and loom covered cable in order to add to ease in routing circuits.

Six new boxes have been added to the system and four replacements were made of out-of-date types that were a liability rather than an asset on the streets.

Eighty-four battery units were replaced with new type spray-proof cells of longer potential life and greater reserve capacity.

All boxes were tested periodically and kept painted, cleaned and oiled.

A summary of alarms is not included in this report as it is included in the report of the Fire Department.

I should like at this time to stress the pressing need of more circuits in the central office. All present circuits are overloaded to the danger point and no room is available to install more equipment in the present structure. The central office is also located at the dead end of the underground duct system, making it extremely expensive and ill advisable to add on to the present building. A more centrally located building designed to fit future requirements would fill a need of this department.

Police Signals

The police signal system has also benefited by the additional cable extensions, as spare conductors were provided in all cable installations for police signal and recall service requirements. One new police box was added to the system and all other boxes were maintained in first-class operating condition at a minimum of expense. The recall system proved its merit on all occasions, besides being of value in locating fire-alarm box positions in all sections of the city.

Traffic Signals

The major construction project in traffic signal installation was at Wollaston Beach intersections at two points on the boulevard. Other intersections were kept in operating condition at all times, sometimes under great difficulty because of worn-out control mechanisms. The intersection at Hancock St. and Billings Rd. was changed from simple vehicular to pedestrian and vehicular progression in order to help pedestrians cross this busy street with more security. This same procedure would be of great benefit to other locations if funds were available to purchase the controllers.

Respectfully submitted,

THOMAS J. SMITH,
Superintendent.

**REPORT OF DOCK AND WATERFRONT
COMMISSIONER**

QUINCY, MASS., JANUARY 1, 1935.

Received by water from January, 1, 1934, to January 1, 1935.

For Quincy Point Power Station:

Bituminous coal	61,711 tons
Coke	5,190 tons

For J. F. Sheppard & Sons, Inc., not received:

Amount of coal of all kinds.....	58.20 tons coal
	27.20 tons coke

For City Fuel Company:

Amount of coal of all kinds.....	\$13,523 05
----------------------------------	-------------

Amount of lumber received by water:

For Quincy Lumber Company.....	530,248 ft.
--------------------------------	-------------

Approximate cost	\$159,074 40
------------------------	--------------

Respectfully submitted,

EDWARD M. WIGHT,
Commissioner.

REPORT OF COMMISSIONER OF PUBLIC WORKS

JUNE 1, 1935.

HONORABLE LEO E. MULLIN, *Acting Mayor*:

The report of the Public Works Department for the year 1934 is hereby respectfully submitted.

ANGELO P. BIZZOZERO,
Commissioner of Public Works.

Net Expenditures—Highway Division

Maintenance	\$284,824 14	
Pensions	13,567 44	
Sidewalks	18,500 00	
Civil Works	37,969 42	
		\$354,861 00
Sanitary Division		131,628 92
Gypsy Moth		12,770 60
Street Lighting		109,345 32
Public Buildings	\$26,527 03	
Public Buildings Civil Works.....	12,750 43	
		39,277 46
Total		\$647,883 30

New Equipment

Highway Division	\$8,823 34	
Sanitary Division	8,909 00	
Gypsy Moth	1,200 00	
Total		18,932 34

For Itemized report, please refer to City Auditor's report.

Street Parks

More than sixty flower beds were planted and maintained with E.R.A. labor under the supervision of Mr. Stewart; the plants were all grown at the City Nursery on Penn Street. Grass seed, sod, equipment and general maintenance were furnished by the Highway Department.

Highway Civil Works Account

Materials, supervision and equipment were furnished for projects as follows: Detailed accounts, please see the reports of the City Auditor and City Engineer.

Merrymount Park Roadway
Victory Park Playground
Private Way Repairs
Central Junior High Curbing
Quarry Rental
Faxon Park Clearing
Forestry (Wood for Welfare)
Faxon Field
Pfaffman Oval
Elm Street Playground

Sanitary Division

In addition to the collections of garbage and rubbish and the care of dumps, 291 cesspools and 25 vaults were cleaned.

At the disposal plant 10,445 yards of garbage were sold as shown in the report of the City Treasurer.

Public Buildings Civil Works

Materials, equipment and supervision were furnished for the remodeling of City Hall, made necessary by the abandonment of the basement offices and the consequent removal of the offices of the Public Works Department, Engineering Department, Wire Inspector and Building Inspector to the Ledger Building.

The old Police Station was remodeled to accommodate the Commissary Department and offices of the E.R.A. All Fire Stations and the Police Station were repaired and painted as scheduled.

For detailed account please refer to Auditor's report.

Street Construction

New streets accepted in 1933 were constructed in accordance with Council Orders. For specific locations please refer to City Engineer's report, and for expenditures, the report of the City Auditor.

Amory Street, Ballou Street, Bellevue Road, Bird Street, Bloomfield Street, Division Street, Elmwood Avenue, Fenno Street, Forbes Hill Road, Henry Street, John Street, Keating Street, Loring Street, Mears Avenue, Myopia Road, Newport Avenue, Stoney Brae Road, Tinson Road and Wallace Road, a total of 2.457 miles.

Streets Rebuilt

The following named streets were reconstructed, some made necessary by the relocation of Sachem Brook, others by recommendation of the City Council:

Adams Street, Bates Avenue, Beale Street, Billings Street, Brooks Street, Chapman Street, Coe Street, Common Street, Dimmock Street, East Squantum Street, Elliott Avenue, Hamden Circle, Marsh Street, Sagamore Street, Scammell Street, School Street, South Central Avenue, South Walnut Street, Standish Avenue, Sumner Street, South Street Widening, Water Street, Washington Street, West Street, Willard Street, Willett and Woodbine, a total of 6.846 miles.

Approximately thirty-five miles of asphalt sidewalks were constructed in accordance with schedule submitted. For details of expenditures please refer to the Auditor's report, and for specific locations the report of the City Engineer.

Sea Wall—E.R.A.

In accordance with an agreement with the Commonwealth of Massachusetts, money was appropriated for materials, equipment and supervision for the construction of a sea wall on Edgewater Drive, Hough's Neck, which was started in October and is about one-third completed.

Gypsy Moth Department

The Fall cleaning program was completed in accordance with the State requirements and the street trees sprayed and trimmed. The work of special trimming for street lighting service was carried on by our men, but was charged to the Electric Light Company on weekly payrolls. In addition to the regular schedule three hundred and twenty-five properties were sprayed and charged to the owners through the Treasurer's office. About 100 loads of leaf mold were collected in the wards and hauled to the nursery for use in potting plants and seed splats.

The Arnold Arboretum gave Mr. Stewart some surplus shrubbery the first week of June, and 142 shrubs were set out in seven rows at the nursery for propagation.

No money was spent for fuel as wood was used in the steam boiler.

A building for the storage of the sprayer was constructed at the plant on Penn Street. This building is 18 by 20 feet.

Materials

Salvaged lumber	10 lbs. clapboard nails
1 keg 8A nails	5 rolls roofing paper
20 lbs. spikes	2 rolls of tar paper
10 lbs. roofing nails	

Some of the oak timber cut in Faxon Park was sawed into boards and planking at a cost of \$10.00 per 1,000 board feet. A platform truck body was built at the City Nursery Shop from some of the lumber and put on the Forestry Chevrolet truck. Total cost, \$5.00, E.R.A. labor being used.

C. W. A. Project

One hundred men were employed on woodlot in Faxon Park, where over 500 cords of hardened wood were cut and distributed to the Welfare Department. Three hundred and eleven trees were planted, distribution being to all parts of the City. This project started October, 1933, and was in operation until May, 1934.

E.R.A.

The E.R.A. expenditures, \$41,049.00, under the supervision of the Forestry Department.

A tree trimming E.R.A. project was obtained and all the trees between Merrymount Park, Hancock Street and the Boulevard down to Atlantic Street have been trimmed of all dead and dangerous limbs; about 200 large cut-leaf maple trees that were in dangerous condition were cut down with E.R.A. labor, the wood going to the Welfare Department.

The grass area at the flower beds and park areas were maintained with E.R.A. labor.

Our Nursery on Penn Street has been regraded, about half an acre of land reclaimed from the swamp area. The loam has been removed and piled where the city dump is going to be filled in in the fall.

In the fall 790 trees were planted.

In October a Gypsy Moth Control Project for twenty laborers and two foremen was obtained to cover the entire City area of 16 square miles.

Also a project for providing wood for the Welfare Department, calling for 50 laborers, 2 axemen, 2 foremen and 1 timekeeper, cutting wood on the Abbott and Granite City Ice Co. property at the Quincy-Braintree line of Newcomb Square.

REPORT OF SEWER DEPARTMENT

DECEMBER 31, 1934.

ANGELO P. BIZZOZERO, *Commissioner of Public Works:*

Sewer and drain construction was carried on throughout the entire year 1934 under P. W. A. and E. R. A. projects and by our own force account.

P. W. A. Project 2051 was a sanitary sewer project executed by force account and under the inspection and supervision of Federal Engineer Inspectors. The project comprised the installation of a system of sewers for the Adams Shore section, Post Island, the Willows section of Houghs Neck and the extension of the Squantum belt line and laterals. This work was about 70% completed at the end of the year. Considerable difficulty is being found in carrying out the work mainly due to limited hours imposed by the government regulations and the inability to secure experienced labor. All labor was secured from the National Re-employment Service and limited to thirty hours' employment per week. A survey of the previous occupations of the laborers furnished will show not over 15% of a total of over five hundred men employed on this project have had any experience on sewer construction. Work of this type should be carried on as continuously as possible and with the least interruption. Under such conditions we are finding it impossible to carry on the work expeditiously or economically, especially by the force account method.

Project 1985 comprised the relocation of a portion of Town Brook and the construction of lateral storm drains to connect with it, the construction of a box culvert at Adams Street and Furnace Brook Parkway and the laying of a 72" and 60" concrete pipe line in Montclair Brook, together with construction of a tide chamber and gates at the outlet in Sagamore Creek. This work was also carried on on the same basis as Project 2051.

The Adams Street Culvert is complete and Town Brook Relocation nearly so, but the piping of Montclair Brook will not be finished until the summer of 1935.

Attached to this report will be found tables showing the location of sewers built during the year.

Particular Sewers

One hundred and sixty-three connections were put in in 1934. The average length of each connection was 50.50 feet at an average cost per foot of \$.88 as follows:

Ward 1	31	Ward 4	27
Ward 2	13	Ward 5	33

SUMMARY OF STATISTICS

Population. Estimated on July 1, 1934.....	79,000
Total consumption of water in gallons for the year	
1934	1,823,357,500
Average daily consumption of water in gallons for	
the year 1934	4,995,500
Gallons per capita per day	62

Main Pipe

Main pipe laid in year 1934 in feet	4,585
Main pipe total in mileage	191.82
Main pipe offset on account of Sewer and Drain Construction (number of jobs)	28

Fire Hydrants

New hydrants installed in year 1934	13
Total number of hydrants now in use	1,782
Hydrants changed	13
Hydrants moved	4
Hydrants broken	14

Gate Valves

New gates installed in year 1934	25
Total number of gate valves now in use	3,083
Repacked	28

Service Pipe

New service pipe laid in year 1934 (feet)	2,622
Total length of service pipe now in use	782,690
Number of taps made during year 1934	57
Number of services now in use	17,015
Services frozen	208
Services cleaned (poor pressure)	850
Services renewed	116
Average length of water service (feet)	46
Services discontinued	25
Leaks repaired in services	879
Leaks repaired in mains	52
Services offset on account of Sewer and Drain con- struction	36

Meters

Number of meters installed in 1934	57
Number of meters now in use	17,015
Per cent of services metered	100%
Number of connections for fire purposes only	53
Gallons of water per tap per day	292
Taken out for testing and repairs	1,695

CONSUMPTION OF WATER FOR PAST FIVE YEARS

Year	Yearly Consumption	Average Daily Consumption	Per Capita Per Day
1930.....	2,007,025,500 gals.	5,498,700 gals.	76 gals.
1931.....	1,921,287,000 "	5,263,800 "	71.6 "
1932.....	1,912,130,400 "	5,224,400 "	70.6 "
1933.....	1,864,055,000 "	5,107,000 "	65 "
1934.....	1,823,357,500 "	4,995,500 "	62 "

**AVERAGE DAILY CONSUMPTION OF WATER FOR 1934
IN GALLONS**

January	4,628,600	July	5,763,900
February	4,792,300	August	5,201,200
March	4,823,100	September	5,120,100
April	4,762,300	October	4,982,500
May	4,914,100	November	4,861,800
June	5,118,400	December	4,931,600

For the year 1934—4,995,500 gallons per day.
62 gallons per capita per day.

J. IRVING BOTTING,

Auditor.

Hingham, August 10, 1934.

REPORT OF THE CITY PLANNING BOARD

January 1, 1935.

*To His Honor the Mayor and Members of
the City Council:*

GENTLEMEN:—We herewith submit the twentieth annual report of the City Planning Board for the year ending December 31, 1934.

This Board has had under consideration during the year several projects for the relieving of traffic in various parts of the City, which we recommend to you for your consideration during 1935.

NEWCOMB STREET EXTENSION

This proposed extension would begin at the Southern Artery in Merrymount Park, east of the Pfaffman Oval, thence crossing the flats to Hudson Street, utilizing Hudson Street to Butler Road, thence extending over private land to Greenleaf Street at Woodward Avenue, utilizing Woodward Avenue and Newcomb Street to Canal Street, thence extending along the Canal (so called) and private land to Washington Street at Pond Street.

The purpose of this extension would be to relieve congestion of traffic through Quincy Square; furthermore, it would partially eliminate the low area nuisance at the Oval and open new land for development between Canal Street and Pond Street. Elm Street could be extended, giving access to this extension from the west.

NEWPORT AVENUE EXTENSION

With the recent construction of Newport Avenue between North Central Avenue and Holbrook Road there now is a traffic artery parallel and west of the railroad from Adams Street to West Squantum Street, or utilizing Upland Road it would begin at Granite Street from the Parking Area.

At the termination of Newport Avenue at West Squantum Street the conditions are very dangerous, due to both streets meeting on a grade and intersecting with two blind corners.

This board would recommend that consideration be given to the extension of Newport Avenue by an underpass at West Squantum Street, and following west of the railroad emerging on Hancock Street at the previous suggested traffic circle on Hancock Street where the Quincy Shore Boulevard and the suggested extension of the Neponset River Parkway come together, which would be about 500 feet south of the Neponset Bridge.

This not only would relieve traffic on Hancock Street from Neponset Bridge to Quincy Square, but would also open new territory from West Squantum Street to the Traffic Circle. It would give a through road parallel to Hancock Street to the west of the railroad, serving traffic in the western part of the City.

UPLAND ROAD WIDENING

This street should be widened at least 15 feet from Granite Street to Saville Street on the Railroad Station side, together with a drive into the Station Yard from the corner of Saville Street.

The traffic on this part has increased very rapidly since the renovation of the Station and adjoining property, causing considerable congestion due to parking and traffic to and from the Station.

The widening of the remainder of Upland Road from Saville Street to Adams Street would be advisable if it was desirous of extending Newport Avenue to serve the South End of the City without going through Quincy Square. This extension of Newport Avenue should be considered if the Federal Government should assist in the elimination of grade crossings by having a suitable crossing at Granite Street to accommodate the traffic from Upland Road.

QUINCY SHORE BOULEVARD EXTENSION

This Board has previously recommended the extension of Quincy Shore Boulevard from Sea Street to the Southern Artery at Brackett Street, which is now being considered by the Massachusetts Public Works Department, and which we still believe would be the proper solution of this traffic problem.

The Massachusetts Public Works Department is expected to propose an alternative suggestion of a traffic circle at Coddington Street, Sea Street and the Southern Artery, which this Board does not feel will properly correct this problem.

This circle would require land taken from the City on three corners, the Mount Wollaston Cemetery, Faxon Field and the Police Station, which should not be done unless absolutely necessary.

SOUTHERN ARTERY CUT-OFF

This so-called cut-off from near River Street to the circle at the Fore River Bridge is still before the Massachusetts Public Works Department for their study. They have considered several locations, but so far have come to no decision as to which would be the best for all concerned.

We expect that our recommendations on this project will become a reality by the time that the Fore River Bridge will be open for traffic.

SHAWMUT TRAIL HIGHWAY

This highway from Milton through the southern part of Quincy to the circle at Fore River Bridge is also under consideration by the Massachusetts Public Works Department and several studies on this location have been made.

We feel that if the Federal Government aids in the elimination of grade crossings that this highway will also become a reality in the near future.

We would advise that you gentlemen give this some thought, so that you shall be prepared to agree on a location that would be for the best interest of the City when the time arrives.

ATLANTIC CIRCLE

This circle is still being considered and recommended by the Metropolitan Planning Board. The State Legislature approved the Circle on the north side of Neponset Bridge this year, and we hope they will approve this one on the south side this year.

This would be the circle that we recommend for the extension of Newport Avenue to enter.

The Chairman of this Board, Mr. Wilson Marsh, has been Chairman over nineteen of the twenty years of existence of this Board and is also a member of the Metropolitan Planning Board, represents the Board on the National Resources Board and on the advisory Committee of the New England Regional Planning Commission.

RÉSUMÉ OF PAST TWENTY YEARS

The Planning Board operates under Chapter 494 of the Acts of the Legislature for the year 1913, which was adopted by the City Council March 15, 1915, at which time they passed an ordinance creating this Board.

This is the twentieth year of this Board and we would like to call to your attention a few of their recommendations that have been adopted during this period.

1915

Building Line on Washington Street	Adopted 1916—Widened 1918
Building Line on Franklin Street	Widened 1924
Building Line on East Squantum Street	Widened 1924-1926
Building Line on West Squantum Street	Widened 1928
Extension of Vassall Street to Oxenbridge Road	Adopted 1920
Removal of Fountain in City Square	Adopted
Relocation of Street Railway tracks in Quincy Square	Adopted

1916

Pilgrim Highway on Town River Adopted as Southern Artery	Adopted 1928
---	--------------

1917

Taking triangle at School Street and Franklin Street	Adopted
Island at Washington Street and Coddington Street	Adopted
Furnace Brook Parkway, Adams Street to Newport Avenue	Adopted 1919
Addition Housing Facilities	Adopted 1918

1918

Bridge to Pine Island	Adopted 1926
Acceptance of Faxon Field	Adopted 1923

1919

Hancock Street White Way	Adopted 1929
Band Stand, Merrymount Park	Adopted 1925
Wollaston Subway	Adopted 1927
Rebuild Hancock Street, Quincy, to Neponset	Adopted

1920

Willard Street — State Highway to Five Corners	Adopted
New Police Station	Adopted 1926
Addition to City Hall	Adopted 1922
Building Line, Hancock Street and Temple Street	Adopted 1921

1922

Building Line, Beale Street, Han- cock Street to Railroad	Widened 1931
Building Line, Revere Road	Widened 1925
Building Line, Chestnut Street	Widened 1928
Zoning	Adopted 1926 (Removed by Referendum)
Tennis Courts on Playgrounds	Adopted

1923

Silent Policeman at dangerous Corners	Adopted
Rounding Street Corners	Adopted

1924

Elimination of Duplicate Street Names	Adopted 1933
--	--------------

1926

Building Line, Granite Street, Hancock Street to Upland Road	Adopted 1934
Extension of Upland Road to Granite Street	Adopted 1929
State Preservation of Moswetus- set Hummock	Adopted

1927

Playground at Hollis Avenue	Adopted 1928
-----------------------------	--------------

1929

New Fore River Bridge	Adopted 1934
Metropolitan Golf Course at Ponkapoag	Adopted 1931

RECOMMENDATIONS UNDER CONSIDERATION

Some of this Board recommendations that are still under consideration are as follows:

1915

Comfort Station
New City Hall

1917

Des Moines Road Extension (Shawmut Trail Highway)

1918

City Garage and Stables on Penn Street

1923

Tennis Courts on Apthorp Street

Taking of Edwards Meadows for Parking (260,000 sq. ft.—\$35,000)

Extension of Franklin Street, School Street to Granite Street

1925

Widening of Cottage Avenue and Foster Street

1926

Shawmut Trail Highway (Quincy to Milton)

The Planning Board of 1915 estimated the growth of Quincy's population as follows:

Estimated	Actual
1920—48,763	47,950
1925—58,513	60,055
1930—70,131	71,965
1935—84,176	82,000 Estimated

Respectfully submitted,

CITY PLANNING BOARD,

WILSON MARSH, *Chairman*,

JOHN FORREST, *Vice Chairman*,

JOHN A. SANDISON,

JAMES C. HORNE,

FORBES A. CRAIG.

WALLACE S. CARSON, *Clerk*.

REPORT OF BOARD OF SURVEY

To His Honor the Mayor and Members of the City Council:

GENTLEMEN:—We herewith submit the Nineteenth Annual Report of the Board of Survey.

There was very little land development being done during the year. The only application was from Harold Brooks for two streets off Adams street near the Milton Town Line.

Respectfully submitted,

LOUIS F. R. LANGELIER, *Chairman*,
JOSEPH N. NOVER,
AARON HOBART, JR.

WALLACE S. CARSON, *Clerk*.

REPORT OF CITY SOLICITOR

MAY 11, 1935.

HON. LEO E. MULLIN, *Acting Mayor, Quincy, Massachusetts:*

DEAR MR. MAYOR:—It has been my privilege to have given opinions to the Mayor, City Council, and other departments of the City during the year 1934. I have represented the City in court on all occasions wherein we were interested and all legal instruments required have been drawn by me. The duties of the office have been discharged and I have effected reasonable settlements of just claims whenever practicable. During the above period no legal judgment was obtained against the City.

Very truly yours,

CHARLES R. YOUNG,
City Solicitor.

REPORT OF ENGINEERING DEPARTMENT

To His Honor the Mayor and Members of the City Council:

GENTLEMEN:—I herewith respectfully submit the thirty-fifth annual report of the Engineering Department for the year ending December 31, 1934.

In the thirty-five years that this department has been in existence the population of Quincy has increased from 23,899 to the present population of 76,909 and the work in the department has naturally increased at the same proportion if not greater. The ordinance covering this department requires that all matters pertaining to Civil Engineering created in any department of the City shall be done by this department, therefore the requests are so numerous I shall not endeavor to itemize them but will include a general description herewith.

City Council

Although the City Engineer is subject to the Mayor only, many requests for information originate in the City Council.

The City Engineer attends all Council meetings and Committee meetings of the Council to furnish information as to costs and feasibility of projects submitted by them. Plans and estimates are prepared for the acceptance of streets, takings by right of eminent domain and all other construction together with proper orders for the same when included in the program.

City Clerk

Plans for all land takings and street acceptances are furnished to the City Clerk to record with the orders when passed by the City Council.

All reports of accidents received by the City Clerk are investigated and surveys made when necessary.

City Solicitor

Deeds and releases of land taken by the City and easements for sewer and storm drains are furnished to the City Solicitor.

Plans for accident or land taking cases are prepared when suit is brought against the City and the City Engineer is at the call of the City Solicitor to testify in Court when necessary.

Tax Collector

The Tax Collector in preparation for his sale of unpaid taxes requires a description of each parcel of land to be sold, during the year 7,631 of these descriptions were furnished.

All liens on properties for betterments on street and sidewalk construction are furnished the Tax Collector on requests that he receives from persons examining the titles of properties to be transferred. There were 1,110 of these requests furnished during the year.

Assessors' Department

The assessors' plans showing the various parcels of land throughout the City, together with the owners' names, buildings, areas and plot numbers are prepared by this department.

This year due to the change of assessing date from April first to January first it was necessary to have the 1935 plans ready by the end of the year.

All buildings constructed during the year were located and plotted on these plans and all changes in ownership were made.

There were 2,835 transfers of properties made on these plans during the year.

It becomes necessary to replace these plans of which there are about 700 regularly due to the numerous erasures necessitated by the changes in ownership and during the year 100 new plans were made.

Surveys were made on 11 properties in preparation for tax appeal cases brought before the State Tax Appeal Board.

Park Department

The Park Commissioners call on this department to lay out baseball and football playing fields on each of their playgrounds during their respective seasons.

As recreation locations were very acceptable as CWA and ERA projects a considerable amount of improvements were done at Faxon Field, Montclair Playground, John J. O'Rourke Playground, Henry L. Kincaide Playground and Merrymount Park all of which were laid out by this department.

Cemetery Department

The Manager of Public Burial Places called on this department several times during the year for the layout of additional lots and single graves.

It became necessary to reclaim additional areas which were filled in and graded which was done under an ERA project.

A granite retaining wall is also being constructed at present by the ERA workers. A granite field office adjoining the original office was built and at the entrance on Greenleaf Street granite posts and retaining walls have been constructed for an iron gate which were ERA projects.

These projects have all been prepared and laid out by this department.

Building Department

The Building Code requires that the City Engineer furnish a grade for the construction of any new building which requires viewing the location and establishing a grade which will conform with the available utilities and surrounding properties.

These requests are personally taken care of by the City Engineer for which the City receives two dollars each for the service, which is shown under the Treasurer's report as Engineering Receipts.

This requirement tends to insure uniformity of construction and prevents errors in construction location that would be expensive to remedy. 133 of these requests were done during the year.

Street Lines and Grades

This department furnishes street lines and grades on accepted streets at the request of the abutters. These requests are generally made when property owners are improving their properties by constructing sidewalks, retaining walls or grading lawns. These requests were cared for as received.

Sewers

During the year 5.28 miles of sewer were constructed. The majority of these 4.645 miles were done under P. W. A. Docket #2051 which included a section of Adams Shore, Houghs Neck (Willow Section) and Squantum.

The amount allotted for this construction was \$339,000 and this docket will be completed about July 1, 1935.

These sewers are planned and laid out by this department and lines and grades together with progress estimates given during construction.

Under the P.W.A. Regulations the City Engineer is responsible for the construction which added considerably more work preparing contracts and estimates before and during construction.

This construction is under the supervision of Walter S. McKenzie, Superintendent of Sewers.

For itemized list of sewers constructed during 1934 see schedule attached.

The total main sewers in place to date is 148.498 miles.

Surface Drains

During the year 6.069 miles of surface drains were constructed together with 214 catch basins and 122 manholes.

The most important installations were the changing of the course of the Town Brook from Fort Street to Liberty Street through Brook Road with a box culvert, thereby eliminating an open brook through the John Hancock School yard and the Henry L. Kincaide Playground.

Also the relocation and lowering of Furnace Brook from Willow Avenue to Reardon street together with a box culvert under Adams street.

Also the covering of the remainder of the Montclair Brook by a 72 inch concrete pipe and the installation of a Tide Gate at Sagamore Creek.

These three projects were included under P.W.A. Docket #1985 for which the allotment was \$159,000.

Under P.W.A. Regulations Plans and estimates were prepared by this department.

Many drains were constructed with C.W.A. and E.R.A. projects which included the changing of the course and piping of Sachem Brook with reenforced concrete pipe, the sizes ranging from 24 inches to 48 inches. Also the piping of the brook through the John J. O'Rourke Playground.

For itemized list see schedule attached.

All drains were constructed under the supervision of Walter S. McKenzie, Superintendent of Sewers.

Federal funds were used to advantage on this type of construction.

The compiling of plans for surface drains previously installed was continued throughout the year from time to time.

Accepted Streets

There were no streets accepted during 1934 on account of unaccepted streets being shaped and graded as ERA projects.

Streets that were accepted during 1933 were constructed during the year, for itemized list see attached schedule.

The total length constructed during the year was 2.457 miles.

Street Rebuilding

Considerable work was done on rebuilding as there was no appropriation for this type of work during 1933.

The construction of Newport Avenue from North Central Avenue to Holbrook Road was a worthy project in order to allow through traffic on the westerly side of the railroad.

East Squantum Street was rebuilt and widened from the Quincy Shore Boulevard to Dorchester Street improving the entrance to Squantum.

Washington Street on the easterly side from Coddington Street to Edison Park was rebuilt with a penetration of cement.

The total length constructed during the year was 6.846 miles.

For itemized list see schedule attached.

Curbing

There was 5,629 lineal feet of granite curbing installed during the year which was cut at the ERA Quarry project.

There are many streets in the City where granite curbing should be installed while we have this Quarry project.

For itemized list see schedule attached.

Granolithic Sidewalks

For the third consecutive year no appropriation was made by the City Council for this type of work.

Asphalt Sidewalks

A very extensive program for this type of walk was approved and during the year 36.23 miles were constructed.

This sidewalk has become very popular probably on account of no betterments being assessed.

This program extended to all parts of the City, for itemized list see schedule attached.

Redistricting Wards

On December 10, 1934 the City Council passed an order establishing eight wards in the City in place of six also making a total of 29 precincts.

The descriptions for these changes were prepared by this department together with new precinct plans for each ward.

P.W.A. Projects

The City of Quincy had two projects approved for grant only under P.W.A. Regulations.

Docket #2051 was for the construction of Sanitary Sewers at Houghs Neck, Adams Shore and Squantum.

This project was started June 6, 1934 employing approximately 500 men who were taken from the unemployed list and furnished by the National Re-employment Service, the work was practically 75 per cent completed at the end of the year.

Docket #1985 was for the construction of Surface Drains being the improvement of Town Brook, Furnace Brook and Montclair Brook. This work was started August 16, 1934 employing 200 men and was about 90 per cent completed at the end of the year.

These projects increased the work in this department very materially.

C.W.A. and E.R.A. Projects

Federal funds continued to be allocated throughout the year under C.W.A. and E.R.A. Regulations and Requirements. C.W.A. ended April 2, 1934.

These funds were for the relief of the unemployed and needy which was a great benefit to the City, both financially and materially.

Many projects were approved and constructed that could not have been financed or constructed for some time in the future.

Some of the many projects completed or now under construction are as follows:

Cemetery grading, retaining walls, granite gate posts and granite office building.

Unaccepted streets in all sections of the City graded and made passable.

American Legion Home on Revere Road.

Sea Wall at Edgewater Drive.

Remodeling City Hall.

Improvements on various School Buildings.

Construction of Squantum Causeway.

Construction of Newport Avenue.

Improvements of Quincy City Hospital.

Improvements at Libraries.

Improvements at various playgrounds including Faxon Field and Merrymount Park.

Installation of Storm Drains.

Installation of Sanitary Sewers.

Various improvements at Squantum Naval Base.

Quarry Project.

Under ERA Regulation the City was required to furnish all materials and equipment for these projects.

Thanks

I wish at this time to express my appreciation for the cooperation I received during the year from His Honor the Mayor, Members of the City Council, Department Heads, PWA Officials, ERA Officials and the personnel of this Department.

Respectfully submitted,

WALLACE S. CARSON,
City Engineer.

REPORT OF THE MANAGER OF PUBLIC BURIAL PLACES

JANUARY 1, 1935.

HONORABLE CHARLES A. ROSS, *Mayor's Office, Quincy, Massachusetts:*

DEAR SIR:—The Manager of Public Burial Places respectfully submits the following financial report for the year ending December 31, 1934.

Receipts

Care of lots	\$2,346 00
Sale of lots	8,890 00
Interments	8,511 00
Foundation and grading	2,287 50
Perpetual care	9,840 00
Perpetual Care Fund—Interest	7,323 84
Other Trust Funds—Interest	116 48
	\$39,314 82

Expenditures

Manager—Salary	\$2,400 00
Superintendent—Salary	2,184 00
Clerk—Salary	700 00
Labor and grading	27,174 50
Truck—Upkeep	432 35
Cemetery—Supplies	1,670 17
Miscellaneous	337 86
Civil Works Account	415 50
New Equipment	2,195 00
Hancock Cemetery	500 00
	\$38,009 38

In 1934 there were five hundred and nine (509) burials and thirty (30) removals.

A detailed statement of the Perpetual Care Investment will be found in the City Treasurer's report.

Very truly yours,

THOMAS GAMMON,
Manager of Public Burial Places.

REPORT OF CITY PHYSICIAN

APRIL 13, 1935.

To His Honor, the Mayor of the City of Quincy:

I beg to submit the following report for the year ending 1934. This report is in accordance with the City Ordinance. This year has been another busy one for this department. Due to the various forms of aid by the Federal Government there was a smaller amount of work than in the previous year.

I would recommend at this time that the governing body of the city increase the facilities of the clinic and at the same time combine the medical work of the other departments, such as the Fire Department medical work and caring for all compensation cases not covered by the City Physician into this one department. One united department from my observation would save the city several thousands of dollars medical expenses.

There were 3,671 house calls, a total of 4,686 patients cared for at the clinic; at the Quincy City Hospital there were 119 cared for which are classified as Out Patients. In the house there were 216 Surgical cases, 91 Medical cases, 75 Obstetrical cases, 75 Pediatric cases, 106 Aural cases and 19 Dental cases. There were 16 deaths. Two patients were cared for at the hospital from the City Home.

Fifty-seven calls were made to the Police Station and 93 were vaccinated for the School department.

In conclusion, I feel that the time is overdue for a complete reorganization of the department of the City Physician, which should be maintained as a separate department, both from the standpoint of the city ordinance and should have its own budget.

Respectfully submitted,

I. EDELSTEIN, M.D.,
City Physician.
52 Elm Street.

JOSEPH J. CARRELLA, M.D.,
Asst. City Physician.

CHARLES G. BERGER, M.D.,
Asst. City Physician.

REPORT OF PUBLIC WELFARE DEPARTMENT

FEBRUARY 28, 1935.

*To His Honor, the Mayor of the City of Quincy and Members of
the City Council:*

The Department of Public Welfare respectfully submits the following report for the year ending December 31st, 1934.

The year 1934 showed a marked reduction in the Welfare expenditures as compared to 1933. A comparison of expenditures for the years 1933-1934 follows:

1933—\$580,895 57

1934—\$339,997 14

a reduction of \$240,898 43

The P. W. A., the E. R. A., together with a huge city program of public works were the principal reasons for this reduction.

Private industry, as in 1933, failed to absorb as many welfare cases as expected.

Work has been done daily throughout the year by all recipients able to work. A person was excused from such work only by a certificate of illness from the City Physician.

The department has prosecuted and will continue to prosecute persons refusing to work for aid rendered.

Medical Attention

Requests for medical services showed a marked increase during 1934. The department rendered the following types of medical service:

Care of acute illnesses, care of chronic illnesses, obstetrical care, surgical care, corrective care (such as provision of glasses and appliances), dental care, and nursing care.

The need for a chronic hospital, with provision for a new dispensary is urgent. The department urgently recommends that a building of this type be constructed as soon as possible.

City Home

The past year has shown a steady increase in the number of persons admitted to the City Home. On many occasions the department has been unable to accept additional inmates due to crowded conditions.

The department wishes at this time to express appreciation to His Honor Mayor Ross, members of the City Council, the Massachusetts Society for the Prevention of Cruelty to Children, and the charitable organizations of the city for the splendid cooperation given during the past year.

For details of expenditures reference is made to report of Auditor of Accounts.

Respectfully submitted,

ROLAND BROBERG,
Commissioner of Public Welfare.

ANNUAL REPORT OF THE PARK DEPARTMENT

JANUARY 4, 1935.

HON. CHARLES A. ROSS, *Mayor, Quincy, Mass.:*

DEAR SIR:—The following is the annual report of the Park Department for the year 1934.

The activities of the department were similar to those of last year. Winter recreation consisted of skating, tobogganing and skiing. In the spring and summer, soccer, baseball, swimming, picnics and outings were the main activities. A stupendous bonfire and carnival was conducted the night before the Fourth of July and several days thereafter at Merrymount Pageant Field by Post No. 95 of the American Legion. Bowling-on-the-green, archery and horseshoe pitching engaged the attention of a great many of our citizens in the summer, and an archery rink and horseshoe pitching court are maintained indoors at the Fore River Club House. Permits were issued as follows: baseball, 1,298; football, 61; soccer, 105; outings and picnics, 66; In addition to this the fields were used for school sports nearly every day during the spring and fall seasons.

During July and August, the playgrounds were conducted under the guidance of paid instructors, and assistants obtained through the ERA. The program was similar to that conducted last year. The average daily attendance at the playgrounds was about 2,500. The playgrounds and ball fields were maintained in a fair physical condition. Much improvement should be made. The Park Department appropriation for the year was much too small, but with the generous assistance of the Public Works Department, Welfare and ERA labor, we were able to carry through in a fair manner. The department hereby records in the order of their necessity, the following recommendations, viz:

1. Fill the hole at the right field in Merrymount Park, and divert the course of the road from Hancock Street into Merrymount Park.
2. Finish Henry L. Kincaide playground.
3. Complete filling and grading of O'Neil Field in Atlantic.
4. Complete filling and grading of James S. Perkins playground in the Merrymount section.
5. Take land at Houghs Neck for addition to A. N. LaBrecque playground.
6. Complete and grade Montclair playground.
7. Complete filling and grading of John J. O'Rourke playground.

While the Park Department realizes that it will cost considerable to carry through these recommendations, it is hoped that they may be fulfilled with the aid of the ERA, if not through regular municipal appropriations. The fiscal expenditures may be obtained from the Auditor's Report.

Respectfully submitted,

YRJO M. MATSON, *Chairman,*
WILLIAM J. SPARGO, *Secretary,*
J. ERNEST COLLINS.

Monday, Wednesday and Friday, 2-5 P. M.

REPORT OF THE TRUSTEES

To His Honor, the Mayor of the City of Quincy:

The sixty-fourth annual report of the Trustees of the Thomas Crane Public Library is submitted herewith.

During the year 1934, because of the continuance of the economic depression, the library department was again obliged to operate on a much reduced budget. This curtailment was reflected in the smaller number of books which it was possible to purchase, and as a result there was a diminution in the use of the library facilities. In other words, the library was unable to meet the demands of its readers. However, the per capita circulation was still above the average in the state and the unit cost per book circulated continued to be very low, this indicating again economy in the management of the department.

As to the maintenance and upkeep of the various buildings and property under the jurisdiction of the library system, it has been a year of renovation through the agency of the civil works administration and the emergency relief administration of the federal government. This has included painting all interior walls and refinishing all woodwork, including all furniture at the main library and painting the exterior and interior and refinishing floors in all the other buildings owned by the library.

New brick steps were constructed at the Wollaston branch. A group of book menders in charge of an expert bookbinder examined over 40,000 books in the branches, the Boys and Girls House and the school collection, mending those needing minor repairs and setting aside those needing rebinding and those unfit for further use. The library has thus benefited greatly through the opportunity furnished by these government agencies to put the library buildings and property in excellent condition at a comparatively slight cost.

The oil burner at the Boys and Girls House went out of commission during the fall and was replaced by one of a more modern type and at the same time the furnace in that building was repaired.

During the year numerous gifts of books have been received. Included in these were over 150 volumes from the estate of Miss Wilhelmina Wright of Sharon, these being presented through the interest and kindness of George W. Abele, Esq., a former member and chairman of the trustees of this library. The continued interest of the Wollaston Garden Club in beautifying the grounds at the Wollaston Branch is noted and greatly appreciated.

The trustees take this opportunity to set forth again the efficiency, loyalty and zeal of the librarian and members of the staff and also take this occasion to thank the Mayor and City Council for their support and cooperation.

Respectfully submitted,

GEORGE E. ADAMS,

Chairman.

GEORGIANA CUSHING LANE,

Secretary.

REPORT OF THE LIBRARIAN

To the Trustees of the Thomas Crane Public Library:

I herewith submit the annual report of the librarian for the year ending December 31, 1934.

The record of the past year in our library shows both gains and losses. On the physical side it has been all gain. Through the agency of the C.W.A. and the F.E.R.A. our main library, the Crane Memorial Building, the Boys and Girls House, and the Wolleston and Parkway Branches have been almost entirely renovated with exterior and interior painting and refinishing of woodwork, including furniture. A group of men, supervised by an expert bookbinder, has been engaged throughout the greater part of the year in going over all the books in the branches, the school collection and in the Boys and Girls House, repairing and mending books needing such attention. As the results, the buildings and equipment and the books also are now in excellent condition.

The major loss has been a falling off in the home use of books to a figure below the circulation of 1932. This drop was not entirely a surprise. Indications that it was coming were apparent in the fall of 1933 and many libraries reported decreases in circulation even for that year. Just as the abnormal call on public library resources were general throughout the entire country, so a decrease in the calls has been an equally common phenomenon. It is probable that the slight improvement in the industrial situation is one cause. Some of the heavy library users of the last few years have undoubtedly found work and have less time to read. Library circulation has always been regarded as one straw to show the direction of the unemployment wind. But beyond question, the chief reason for the loss in circulation has been the failure of almost all libraries to keep pace with the demands upon them because of reduction in library appropriations, especially funds for books. Our own book fund was cut nearly fifty per cent in 1932 and not materially increased in 1934, and the results are very evident to people who come to us for library service. We are wearing out our books almost as fast as we replace them. The situation has been so well put by the librarian of the Somerville Public Library in his report for 1933 that his words are worth quoting: "Books are the life blood of the library. Like a man losing blood, the library can bleed for a short time without fatal results, but the process is weakening and the loss must be stopped if the vitality of the library as a useful institution in the community is to be maintained. We cannot contemplate without great concern for the future a situation in which demand and wear mount upward and supply declines."

I have written the foregoing not in a spirit of complaint, but to point out a situation that is not only embarrassing but a definite exigency in our own library. I realize fully the difficulties and the responsibilities of the appropriating bodies in these times, and our condition is not any worse than the majority of our sister libraries and undoubtedly it is better than many. But it is nevertheless a matter of very serious concern.

Book Stock

Though 7,951 books were added through purchase and gifts during 1934, our stock was increased by only 1,110 books, due to the unusually large number of withdrawals, 6,841 books being dis-

carded. These discards came chiefly from the branches, and were almost entirely books in dirty and dilapidated condition, with missing pages, set aside by the F.E.R.A. mending crew during their examination of the shelves. As a result, many of the branches ended the year with fewer books in their collections than at the beginning. The total book stock amounted at the end of the year to 102,061 volumes. Probably the most noteworthy addition to the library was a full set of the decisions of the Supreme Court of Massachusetts, commonly called the Massachusetts Reports, and the Massachusetts Digest of these same reports. These, shelved in one of the balcony alcoves, have already had extensive use. Special attention this year has also been given to building up and properly cataloging our collection of pictures, for which there is a steady call.

Use of the Library

The total number of borrowers' cards in active use at the end of the year was 25,951, only 37 less than the figures of 1933. The total circulation of books from all the various agencies of the library for 1934 was 847,399 as against 901,823 the previous year, a loss of 54,424 or 6 per cent. This is the first annual report of the library since 1923 to record a loss instead of a gain in circulation. The per capita circulation, 11, though slightly less than last year is still much higher than the average for public libraries. Through the privilege of the inter-library loan system, we have borrowed more books from other libraries in metropolitan Boston than usual and we have loaned more books to smaller libraries, notably Weymouth, Braintree, Hingham and Cohasset. There has been no apparent diminution in the use of our reading room facilities nor in the demands for reference service.

Branches

We have been extremely fortunate in maintaining our branch service intact through these depression years, not even having had to curtail the hours they are open. While most of the branches suffered losses in home use of books, the Wollaston, the Norfolk Downs and the Lakin Square branches actually had gains of between two and three per cent over any previous year, something for the librarians of these branches to point to with pride. While only 40 per cent of the book stock is in the branches, the branch circulation is 67 per cent of the total. The lot of the branch librarian is not a happy one in the face of the demands for books, especially the new books. And that of the chief librarian is also embarrassing in having to refuse requests and prune down orders, while he recognizes how legitimate these requests are.

The branch librarians are very much alive to the needs of their communities and extremely anxious to satisfy their patrons, and naturally enough feel it keenly when disappointed borrowers comment reproachfully on the inadequacy of their book resources. Though we have a branch rotation system for new fiction and some of the new non-fiction and the branches borrow freely from the main library and each other, these expedients relieve the situation very slightly and the real remedy lies only in a larger appropriation for books.

Work With Children and Schools

Miss Kingman, our children's librarian, reports a slight gain in circulation at the Boys and Girls House and a busy year. The experiment started last year of forming various clubs among the

children during the summer vacation was continued with some modifications. The dramatic club gave a successful production of *Master Skylark* on the stage in the basement, which was attended by a full house composed of relatives and friends. A larger amount of the book appropriation was allocated for the purchase of children's books than in 1933, but we are still far behind in replacing many of the standard books.

Though we have not purchased any books for the school classroom libraries for two years, we have complied with the requests of about one hundred teachers in the elementary grades of the Quincy schools for these libraries. Because of the heavy wear and tear on these books and our dwindling stock, the continuance of this service in the face of the demand for it is a pressing and at present unsolvable problem.

Staff

The resignation of Miss Mabel S. Baxter, after forty-five years of service, at the end of the year 1933 was given special and deserved mention in last year's report. On January 11, a staff party was held in her honor and was attended by all the present staff, many of her former library associates, and by Mr. Truman R. Temple, former librarian, and Mrs. Temple. Miss Baxter was the recipient of gifts of a sun dial and a book case. The occasion, though tempered by the regrets for her retirement, was a happy one.

Mrs. Mary Mills, who had been Miss Baxter's assistant at the Mabel S. Baxter Branch, has, with the assistance of Miss Charlotte Stone, carried on the work at that branch. Miss Eleanor Gow and Miss Irene Ponti have been added to the staff during the year, and we lost, through her marriage, Miss Martha Sisson, who had been with us a little over a year.

In times past this library has had a fixed requirement that persons appointed to the staff who had not had previous library training should take, at their own expense, two or more regular courses at some summer library school. Because of the very small salaries at which we have been forced to start new assistants that rule has been waived in recent years. To make up in part, only in part, however, for this deficiency, the librarian has this year given a course to six of the newer members of the staff on some of the more important phases of library practice, including classification and the use of the catalogue and bibliographical and reference tools.

Two of the usual monthly staff meetings took the form this year of visits to the Somerville and the Newton public libraries, where similarities and differences in system and practice were observed and compared. Meetings of the Massachusetts Library Club and other library groups have been attended by members of the staff, and Miss Callahan, Mrs. Rosvall and the librarian attended at their own expense the American Library Association conference in Montreal in June.

Other Items

The bi-monthly "Bulletin," listing the new books added to the library, now issued in mimeographed form, has been published as usual. Its format, for which Miss Callahan has been responsible, has been the subject of favorable comment from other libraries, some writing us to learn how it is made so attractive. When toward the end of the year, Mrs. Wilford's weekly book column

in the local papers was temporarily suspended because of her illness, we had many inquiries regarding its absence and a general commendation on its interest and value to many readers.

During Book Week, Nov. 11-18, through the generosity and interest of Mr. Delcevare King, the library was allowed the use of both of the show windows of the Granite Trust Company for book exhibits, one for adult books largely on hobbies, and the other for children's books. They were made so attractive that Mr. King insisted that they be held over for an additional week. An exhibit was also held at the main library during Public Library Week in October, so designated by the proclamation of Governor Ely.

In conclusion, I want to state that I believe that the library has performed a useful and, for the most part, a satisfactory service to the citizens of Quincy during the past year. At least one-third of the population of the city have availed themselves of its facilities for recreational and educational reading. We have served business men, professional men and women, workers, students and children, and in many cases this service has had a practical dollars and cents value to the individual. We have a plant now in excellent condition, a loyal and intelligent staff, the one thing needful being greater resources of books.

To each member of your board, I express my thanks for your cooperation, your confidence, your interest and your practical assistance.

Respectfully submitted,

GALEN W. HILL, *Librarian.*

Feb. 5, 1935.

Statistical Summary

Population served, 71,956 (1930 census).

Free for lending and reference.

REPORT OF CITY CLERK

To His Honor, the Mayor of the City of Quincy:

I have the honor to submit the forty-sixth annual report of the department, being for the year ending December 31, 1934.

RECEIPTS

Licenses:

Pool and billiards	\$380 00
Victuallers	730 00
Junk	170 00
Job Wagon	2 00
Auctioneer	10 00
Hackney	14 00
Public Halls	135 00
Theatre—annual	65 00
Theatre—Sunday	1,888 50
Motor Sales	850 00
Lord's Day	965 00
Gas any renewals	141 75
Liquor	53,026 00
All others	326 75

Permits:

Marriage	1,398 00
All others

Miscellaneous:

Recording	1,642 15
All others	160 25

\$61,904 40

The above sum has been paid to the City Treasurer.

Number of marriage intentions issued in 1934.....	701
Number of marriages recorded in 1934.....	753
Number of births recorded in 1934.....	1,390
Number of deaths recorded in 1934	804

The number of dogs licensed in 1934 was 1,590 males; 188 females; 477 spayed, for which the sum of \$5,074.00 was collected. The sum of \$4,623.00 was paid to the City Treasurer for the use of the County and the sum of \$451.00 was paid to the City Treasurer for the use of the city. The sum of \$2,738.00 was collected for hunter's licenses. The fees amounting to \$312.00 were paid to the City Treasurer and the balance to the Commonwealth.

Annexed are the births, marriages and deaths recorded in Quincy in 1934 and the election returns.

EMERY L. CRANE,
City Clerk.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Quincy:

The School Committee presents herewith its report for the year 1934.

The financial condition of the city has improved slightly over that of the preceding year, but has nevertheless required the greatest care in the consideration and adoption of the annual budget for the schools. It was not thought possible to re-establish the evening and home-making schools. A request was received from the Parent-Teachers Council asking that the dental clinic be re-established but no action was taken, as it was deemed to be not a strictly school function and funds were insufficient to continue the clinic. All apparatus and equipment was transferred to the Health Department for use in a pre-school dental clinic.

No salaries were increased but a few adjustments were made in order to equalize the salaries of similar positions. It was voted that, beginning September 1, 1934, the automatic increases for teachers receiving less than the maximum should be continued. These increases had been temporarily suspended during the preceding year, owing to the financial stringency, although it was felt that this action was an injustice to the more poorly paid teachers.

The School Budget, as finally unanimously passed, amounted to \$1,195,844.90. There has been returned to the city treasury on account of receipts from school activities approximately \$147,000.

The School Committee voted to sanction the giving of four weeks' work for all receiving over \$1,200 per year, provided all other city employees made a similar contribution to the city. This, however, proved not to be necessary.

The physical conditions in the schools have been good except in the North Quincy High School. There the large increase in the number of pupils, as predicated more than a year ago, has rendered necessary a great overcrowding of the high school building itself and the retention of seventh grade pupils in the intermediate school buildings. These seventh grade pupils were thus deprived of many of the advantages to which they were justly entitled, and were compelled to walk long distances to the high school building for certain exercises.

For about three years plans have been finished and accepted and requests for the erection of the west wing addition to the North Quincy High School have been made to the proper authorities. On April 5, 1934, a motion was unanimously passed that "the School Committee urge the Mayor and City Council to give the addition of the wing to the North Quincy High School their first consideration in any building project to be undertaken at this time."

On June 15 the architects estimated the cost of the addition at that time to be \$349,900, and they stated that at least one year would be required for its completion.

On November 16, 1934, a special meeting was held with the building committee of the City Council, at which time early action was urgently requested. The prospects now are that some action in this matter will be taken in the coming year.

Early in the year the Superintendent submitted the outline of a study of school management known as "research and guidance." By this plan a fact-finding investigation of each pupil in the Junior High School is made—to include his scholastic standing, his home conditions and his personal reactions. As a result, valuable advice can be given as to the future activities, and pupils of equal intelligence and ability may be grouped so that they may do their most effective work.

The plan has proved satisfactory. The pupils have progressed as fast and as far as their individual abilities allowed. There have been fewer "repeats," with consequent saving in the number of teachers required and in expense to the city.

On September 5, 1934, the School Committee voted to approve the plan for research and guidance as an abstract principle and definitely accepted it for one year,—continuance to depend on the action of the Committee at that time.

One of the most important events of the year was the suggestion by Mr. Foy on March 27 that the School Committee take action to gain more respect among pupils for law and order and constituted authority.

A meeting of the School Committee and all principals was held on May 1, with a view of ascertaining what is now being done and what suggestions might be made to further the teaching of law and order. As a result a constructive program has been laid out to consider the problem from twenty different angles co-ordinating the work in the schools and outside the schools and in the homes. Recognizing the delinquency of the modern youth, this bids fair to be a most important subject for consideration in the schools.

On June 5 a resolution was unanimously adopted that "a definite and regular course of instruction on the subject of Law and Order shall be a part of every school program." The principal purpose and intent of the resolution—Law and Order—was to teach the child the advantages of right living and the disadvantages of wrong doing.

Two of our principals have retired,—Mr. James S. Perkins, after teaching 50 years, 22 of which were spent as principal of the Coddington School, resigned last June. Mr. Perkins was an efficient teacher and master and was much beloved by pupils and parents. Mr. Elijah P. Barrows, for many years principal of the Trade School, has brought the school to a high degree of efficiency. He retired at the age limit in August. Both these men deserve and receive the thanks of the School Committee for their most admirable services. May they long enjoy their well-earned rest.

Mr. James Marr served for 16 years as custodian of the Willard School. His work was faithfully done and his gentlemanly bearing was an example for pupils and teachers. His health failed while on duty and he was retired and voted a pension.

We are pained to report the sudden and tragic death of two of our custodians. Mr. William Nugent of the Quincy High School was drowned last summer. Mr. William Barron of the Central Junior High School suddenly collapsed while at his work. These men were faithful, conscientious workers whose places it will be hard to fill.

The Committee has had a strenuous year, having had twenty-three meetings and conferences. We wish to record the constant and faithful work of the Superintendent and all the personnel of the department to make the schools a success.

We wish also to acknowledge the cooperation and kindness of the Mayor and City Council during the past year.

The foregoing report was presented by Dr. Hunting and Mr. Foy and adopted by the School Committee as its report for 1934.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee of Quincy:

The future of our schools depends on the wisdom and loyalty with which this generation makes decisions and the effectiveness with which it trains young people to think straight and act wisely.

Health Work in the High Schools—The health work which was carried on in the Quincy High School was of great value to the general welfare of all the pupils. In a few short months we have seen the work dwindle and collapse. The establishment of this work, to my mind, was one of the most beneficial and progressive educational steps that we have taken in Quincy during my term of office.

In his annual report to the Superintendent, Mr. Ernest Collins, Principal of the Quincy High School, refers to the health work as follows: "We regret that the serious illness of Mrs. Baker prevented her from continuing her valuable work in the school. Because of her skill, character, and sympathetic nature she was able to accomplish things which would be impossible for most teachers. It would not be an extravagant statement to say that hardly a day passes in which we do not have occasion to realize the loss of her services."

A recent report of actual cases voluntarily submitted to the Superintendent by the Quincy High School counselors makes a plea for the continuation of this work.

I unhesitatingly recommend that the health service be restored in the Quincy High School and a similar health service be established at the North Quincy High School.

Non-English Speaking Pupils—It is essential at this time to establish a class for non-English speaking pupils. We have a number of pupils coming into the city from foreign countries and very little education can be given to them in the regular classroom. At the present time we have seven pupils who are Albanians and fifteen Italians ranging from ten to eighteen years of age. These children, if we expect them to get anything out of our schools, should have special attention from a teacher qualified to teach an ungraded class. I, therefore, recommend that we establish an ungraded class for non-English speaking children.

Physically Handicapped Children—According to Acts of 1930, Chapter 368, of the General Laws of Massachusetts, as amended by Acts of 1932, Chapter 159, "In any town where, at the beginning of any school year, there are five or more children so physically handicapped as to make attendance at a public school not feasible, and who are not otherwise provided for, the school committee shall . . . employ a teacher or teachers . . . who shall . . . offer instruction to said children. . . ."

We now have a record of eleven such physically handicapped children in Quincy. I recommend, therefore, that a competent woman be employed to make a survey of these children to ascertain exactly what the individual child has done and should do and to make a report and recommendations to the Superintendent and the School Committee.

Educational Meetings—We have had a great many educational conferences and meetings during the year. We have had several general teachers' meetings, meetings of the junior and senior high

school principals, meetings of the elementary school principals, meetings of the junior and senior high school principals and counselors.

One of the outstanding general meetings of the year was addressed by Dr. Eleanor T. Glueck on the subject, "The Educator's Responsibility for Crime Prevention." This meeting was held on November 14, 1934. Representatives from the various organizations interested in delinquency and crime prevention were present. Dr. Glueck's message was received with much enthusiasm and I am sure stirred the teaching personnel and visitors present to greater endeavor.

Early in the school year of 1934 I met with the principals of the elementary schools and before adjourning it was decided to revamp and revise the elementary course of study. At a subsequent meeting committees were appointed and are at work on the revision of the course of study. About the same time of the year committees were appointed on the revision of the science courses, and while they have done an outstanding piece of work, they will continue during the year 1935.

At several teachers' conferences and principals' meetings I have urged the principals and teachers to give more and better attention to the adaptation of instruction and to the individual needs of pupils. It can be done; it should be done. I urged all those who are in any way responsible to study more carefully the achievement of the pupils and their responsibilities to them.

American Education Week—It might be of interest to know that during American Education Week we had in the Quincy public schools 9,671 visitors. Every school in the system had a program that attracted and interested a great many of the parents. Here are types of programs presented during the week: open house in the schools all week; exhibits and demonstrations of regular classroom work; parents' nights with classrooms open for inspection of children's work and conferences with teachers; demonstrations of physical education activities; parents invited to visit regular school sessions during the day; teachers in the buildings after school hours for conferences with parents. Needless to say, when parents and other citizens know they are welcome at school and can see the actual work of the school in progress, they become more interested in the work that is being done within the school system.

The Retirement of Dr. Nathaniel S. Hunting and Mr. Robert E. Foy—Dr. Nathaniel S. Hunting served as school committeeman for thirty-seven consecutive years; Mr. Robert E. Foy for sixteen consecutive years. At a testimonial dinner and reception held on December 13, Quincy's citizens from every walk of life assembled to pay tribute to them.

Although vastly different they have been partners in a common task. They have given a full measure of devotion to the trust committed to them by the citizens of Quincy. Both have left an indelible imprint on the schools for good that will be a splendid example for those who succeed them.

Dr. Hunting possesses the rare gift of friendship and cooperation. The School Committee work has been his avocation. He has given largely of himself in the interests of others. He was always found in the vanguard in laying the basis of a sound, forward-looking educational policy.

Mr. Foy's work on the School Committee has been well done. He always faced the issues squarely. His contribution to the up-building of good schools will continue to be felt.

During his last year of service he was insistent that the School Committee make a greater effort to bring about more respect for law and constituted authority on the part of the children committed to their care. He was not to be daunted but kept at it until a resolution was passed on the evening of June 5, 1934, "that a definite and regular course on the subject of law and order shall be a part of every school program, and that the principal of each school shall be held responsible for the enforcement of the rules to regulate discipline." This was unanimously endorsed by the School Committee with a further proviso by Mrs. Nichols that ways and means be found of furthering the intent of this resolution. Much work has been done in order that there may be a definite program for the teaching of law and order in the Quincy public schools.

As the years come and go, Mr. Foy's name will be known as the member of the School Committee who insisted that something should be done to inculcate into the hearts and minds of the coming generation a greater respect for law and constituted authority.

Musical Activities—Under the direction of Miss Howes, Supervisor of Music, vocal and instrumental work have been continued as in previous years. Glee clubs in Central, South and Quincy Point Junior High Schools have given operettas, and the Quincy High School Glee Club presented the Gilbert and Sullivan opera, "The Gondoliers."

Enrollment in the instrumental classes for string, brass wind, wood wind and percussion instruments has increased slightly over last year. Orchestras are available for pupils of all elementary and junior high schools, and both senior highs have two orchestras and a band. These latter organizations were given a high rating at the Massachusetts State Festival held in Melrose in May.

After a series of teachers' meetings for discussion, the music appreciation course introduced last year in the elementary and junior high schools has been revised and now has been incorporated as a part of the regular school music period.

To promote greater interest in music appreciation and to motivate instrumental study, concerts have been given to music assemblies of all junior and senior high schools and to some elementary schools by bands and orchestras composed of professional musicians organized under the direction of the Emergency Relief Administration.

During the year the music department has furnished music, either orchestra, band, glee club or small instrumental ensembles for more than twenty-five affairs in the city outside of school entertainments. These contacts are greatly to be desired since they not only show a definite confidence on the part of the community and give the music department an opportunity to be of practical service to the city, but also pave the way for an ultimate outcome of music work in the schools, an evidence of which is shown by the organization of an alumni orchestra and choral society this year.

Teacher Training—There are three classes or groups of teachers who come directly under the supervision of Miss Dellicker, Supervisor of Grammar Grades, whose work is that of supervision of methods of instruction. They are (1) Student practice teachers, (2) New entrants—these are for the most part beginning teachers, (3) Experienced teachers.

For some years Quincy has given training to students from the state teachers colleges and universities in the immediate vicinity. These student teachers practice for nine consecutive weeks all the

days and all the hours the schools are in session. There were twelve of these student teachers last year who came under Miss Dellicker's supervision.

It is needless to say that a great deal of teacher training is essential to break in the new entrants. Miss Dellicker reports 378 visits to new entrants and those looking to tenure, of whom there were in all forty-seven. Quoting from her report to the Superintendent: "Their needs were met in part by means of personal teaching, by means of devices for motivation, and special checking by discussion of various classroom situations immediately after the occurrences, and by demonstration by experienced teachers."

Art—The recent enrichment of offerings in the field of Art has entailed a great deal of extra work. A sincere expression of appreciation is due Miss Adams, the Art Supervisor, who has voluntarily devoted two summers to the preparation of new courses.

An exhibition of pen and ink drawing and linoleum prints was sent to the State Art Conference held at the Massachusetts School of Art.

The Boston Chamber of Commerce conducted a competition among the high schools of metropolitan Boston for posters for Art week. Both of our senior high schools competed, and Elizabeth Balcom of the North Quincy High School won a prize of a year's tuition to an art school. Besides this, four posters from Quincy were chosen as among the fifty best and these were exhibited at the Boston Art Club.

The Chadwick Clinic—Under the direction of the Division of Tuberculosis of the State Department of Public Health, the services of the Chadwick Clinic were made available to the school children of Quincy.

Following is a brief summary of the work as given by the School Physician, Dr. Drew:

Total school population	15,276
Total number children given Tuberculin Test.....	11,132
Total number reactors	1,767
Total number X-rayed	1,906
Total number referred for physical examination.....	453
Total number children examined	441

The Follow-up Clinic was conducted as in previous years.

This successful activity of the Chadwick Clinic is a very valuable factor in our school work and is most necessary and important for the health of the school children in the future.

Physical Education—The P. F. I. tests have been successfully used again this year. All low index pupils have been retested as in the past and new classifications given them. Boys and girls of the ninth grade who were to enter Quincy High School in September were given these tests in the spring term and classified into groups according to the individual needs of the pupils. Many interesting cases have come to our attention where real help has been given to the pupil. Specific cases of flat feet, leg and back weaknesses, etc., have been noted, some of these being worked on with marked results in cooperation with the family physician. A new filing card was introduced this year. Starting with a medical examination in the seventh grade, this card will serve as a six-year record and will follow the pupil through junior and senior high school.

Upon recommendation of Mr. Whiting, Supervisor of Physical Education, the School Committee voted to look into the question of better playing facilities for the Quincy High School athletic

teams. A sub-committee of the School Committee is now at work investigating the matter and preparing a definite recommendation. This is a start in the right direction, as additional playing space is badly needed, not only for the school teams but for the intramural and girls' games as well. At present the sophomore boys are compelled to use the Pageant Field and Perkins Playground. In addition, a suitable play field for school teams will provide increased revenue, allowing larger groups to participate in the various games.

In our elementary grades we have introduced the recently issued state manual of Physical Education for grades 1 to 3 and 4 to 6.

Teaching Aids—With the beginning of this school year we have resumed the delivery system of the available teaching aids under the direction of Mr. Krasker. Our experience last year with the calling system proved definitely that it is impractical. Since the resumption of this service the use of teaching aids has returned to its former extended basis.

The equipment of the different buildings is in good order and the centralized office has the necessary supplies available with which to service the needs in this field for the coming school year. Two combination slide and opaque projectors have been added, one to each Senior High School, primarily for the use of the Art departments but available to all teachers. The Parent-Teacher Association of the Atherton Hough School has donated a splendid motion picture screen for their building. Several of our buildings have had the auditorium equipped with opaque shades.

Our experience shows that the best method of using all the available teaching aids requires that the individual teacher use these in her own classroom as a regular part of the teaching program. There are many objections to the use of any other method. With this thought in mind, a definite program for equipping the rooms with opaque shades should be established. The suggestion is that one classroom in each building should be so equipped each year. In this way we will encourage the most desirable use of the available teaching aids.

The Establishment of a Department of Guidance and Research—A department of Guidance and Research was experimentally established by the School Committee in September, 1934. The work of the department was defined as follows:

"Guidance means providing an opportunity for every pupil to develop to the best possible advantage.

"Research means carrying on a program of study and fact finding.

"The functions of a department of guidance and research include the adjustment of the school program to meet changing needs; the direction of the counseling system and the study of special cases; the study of educational problems and the devising of remedial and preventive measures.

"Such a department is a means of:

(1) maintaining an educational program that is sound and effective;

(2) providing individual attention to every pupil and giving every pupil an equal chance;

(3) insuring efficient school management."

The work in guidance and research has been under way since April, 1932. To date it has been confined largely to the secondary schools. This work has been under the direction of Miss Harrison. Following is a brief discussion of what has been done since January, 1934:

Curriculum Revision—The program of studies for grades 9-12 as printed last April represented a further revision of the secondary offerings. The new features were as follows:

- (1) The inclusion in the program of studies of the ninth grade courses.
An intelligent choice of courses for the ninth year cannot be made without an understanding of the advanced work to which they lead.
- (2) The elimination of the Manual Arts curriculum in grades 10-12.
With the exception of advanced industrial mathematics, all subjects were retained as electives.
- (3) The inclusion of the Trade School offerings as part of the regular school program.
The purpose was to dignify the work and give information in regard to it; also to urge the completion of the ninth year in the junior high school.
- (4) The addition of a civic curriculum.
This curriculum was designed to meet the needs of the large group of pupils who want neither vocational training nor college preparation. It offers a four-year program of general education, the purpose of which is to train boys and girls for intelligent participation in civic life.
- (5) The addition to the commercial curriculum of a division of salesmanship.
This provides a two-year program especially suitable for boys.
- (6) The reorganization of the Home Economics curriculum.
The purpose was to allow specialization in grades 11-12 in dietetics, costume design or art.
- (7) Further enrichment of the offerings by the addition of the following new courses: practical chemistry, practical physics, applied science (Home Economics curriculum), physiography; general business (Civic curriculum, grade 10), advanced salesmanship (including marketing and advertising), retail selling, office machine operation, economics (Commercial curriculum); shop mathematics (Industrial curriculum, grade 9), practical mathematics (Civic curriculum); current problems, economics (Civic curriculum); foods—nutrition, dietetics, costume design; applied design (Home Economics curriculum, art division), perspective drawing (Industrial curriculum, grade 9), appreciation of American art (grade 9), art appreciation (senior high school advanced course), history of costume, home decoration; music fundamentals.
- (8) A revision of the content of the following courses: economic civics, the physiology unit in biology, problems of vocational adjustment.

The new art courses were prepared by Miss Adams. Tentative outlines for a number of the other courses were prepared by committees of teachers. Mr. Bridges, Mr. Price and Mr. Millard served as general chairmen of the committees on Science, Social Science

and Commercial studies, respectively. The new courses in mathematics were prepared under the direction of Miss Dellicker.

Aside from minor modifications and changes, this completes for the present the new program of studies for grades 9-12. This program of studies is receiving the commendation of educators throughout the country.

The work in curriculum revision has been part of the guidance program. The purpose in enriching the secondary offerings has been to provide more adequately for the varying interests and purposes of the different pupils and to offer courses of study that are meaningful and vital and are related to the actual lives of boys and girls today. This is in keeping with the trends.

As was discussed in the last annual report, the new program has not involved increased cost. In fact, the new courses represent a saving, in that pupils succeed in work which is interesting to them and suitable for them. It is failure that is expensive. The same is true in respect to other phases of the guidance work—efficiency has meant economy.

The group guidance courses for grades 7-8 were revised by committees of counselors last spring.

The Study of Pupil Progress—During the past year there has been continued study of different phases of pupil progress.

A follow-up study of grade 10 pupils in the Quincy High School at the end of the half-year revealed the fact that over 95% had been correctly placed. The remaining cases were given special study and adjustments recommended.

A study was also made of the achievement of these pupils according to the different subjects and the junior high schools from which they entered. Charts were prepared for the information of the principals.

All incoming grade 10 pupils were classified by the junior high school principals and counselors and placed accordingly. Special blanks were prepared by the counselors giving information in regard to each pupil. The junior high school principals devised a similar form for use in obtaining data from the elementary schools relative to the incoming grade 7 pupils. This information has proved valuable to the junior and senior high school counselors in becoming acquainted with the pupils and in checking on their progress.

A recent study of pupil progress in grade 10 shows a further decrease in failure for this grade. The per cent reduction of failure during the past year is 27.6. The total reduction over the two-year period has been 42.4%. A study of grade 11 shows a similar decrease in failure over previous years. This can be attributed to several factors: (1) more adequate offerings from which to choose; (2) more attention to the individual pupil in his choice of work; (3) reduction in the number of points which pupils are allowed to carry necessitating a more serious attitude toward school work; (4) more scientific placement of pupils within the school program allowing effective adaptation of instruction to individual differences; (5) more careful checking on pupil progress; (6) provision for the investigation and adjustment of cases presenting difficulties; (7) the psychological effect of having every pupil have a task which is difficult but reasonable. With reduction in failure there has been a corresponding improvement in pupil morale.

A recent study of school histories reveals the fact that approximately one-third of the pupils entering grade 10 have been enrolled in one or more school systems other than Quincy. This gives some idea of the pupil turnover and the extent of the problem of assimilating transfers.

A study of the scores on standard tests given in grade 9 revealed a range of ten years in both arithmetic reasoning and reading comprehension. As a result principals throughout the system have been requested to make an intensive study of the test scores of pupils in their schools and to submit recommendations. This is a phase of the work to which greater attention must be given. Handicaps must be removed early and disabilities prevented to whatever extent is possible. Such difficulties become aggravated over a period of years, often with serious consequences. Teachers need further training in the interpretation and use of test results.

There must be constant checking on the progress of pupils as groups and as individuals. More adequate provision must be made for those requiring special attention.

Attention to the Development of the Child as a Whole—The guidance program is emphasizing the importance of the development of the child as a whole. Education is no longer conceived as mere mastery of subject matter. The school must be concerned with the all-round development of the individual child.

The counseling system as organized last year is a means to this end in that it provides individual attention to every pupil throughout the secondary grades. Counselors are becoming more alert in recognizing difficulties. The home visitors serve as liaison officers between the school and the home and the various social agencies. The home visiting service has been reorganized to meet increasing demands. Miss Perry and Mr. Clark are devoting part-time to this work.

With the exception of the work which was carried on experimentally at the Quincy High School, the school system has not provided health service for the three upper grades. It is essential that the health program be extended to care for the physical welfare of the pupils throughout the twelve-year period.

There is growing recognition of the importance of pupil activities. Activities outside the classroom constitute a vital part of the educational program. They are especially significant from the viewpoint of training for citizenship and leisure-time interests. It must be understood that present-day teaching involves two types of responsibilities—classroom and non-classroom. Standards are being established for both types of teacher loads. The activity program of the school needs further study.

Throughout the system there must be more attention to the child as a whole. The school has the added responsibility of bringing about a recognition of the fact that the total experience of the child in school and out of school constitutes his education and determines his development.

A Program for the Teaching of Law and Order—In accordance with the resolution of the School Committee, the problem of teaching law and order in the Quincy public schools has received intensive study by the Director of Guidance and Research.

Attention has been called to the fact that law and order or any other attribute of good citizenship cannot be taught as a classroom subject. The entire school program must contribute to such teach-

ing. The problem involves a consideration of the following: the facts regarding delinquency and the implications for education, school citizenship, attention to the development of the individual child, the school offerings, activities outside the school.

As first steps toward a program for the teaching of law and order, it has been recommended that committees of teachers study and report on certain phases of the above topics. The work for some twenty committees has been carefully planned. The project gives added impetus to much that is already underway. If properly guided, it will be constructive and far reaching.

Such a program is in keeping with the trends. Throughout the country there is growing recognition of the seriousness of the situation in respect to juvenile delinquency and the ineffectiveness of treating the delinquent.

If the school is to contribute to a program of prevention, teachers must be trained to detect early symptoms of maladjustment and early delinquent tendencies; the school system must provide adequate facilities to care for these difficulties after they have been detected. The above objectives should be our chief concern during the coming year.

It is gratifying to be able to report so much progress. I want to express appreciation to those who have contributed to it.

The Assistant Superintendent has reported for the State-aided schools and special classes.

Respectfully submitted,

JAMES N. MUIR,
Superintendent of Schools.

The Day Trade School

The outstanding feature for the school year 1933-34 has been the 13% growth in school membership to 209, the largest membership in the history of the school. At the present writing, December 1, 1934, the school membership has grown to 235 and the physical capacity of the building has been reached in most departments. Over 30 boys have been placed on the waiting list because it is impossible to care for them in the department they wish to enter.

The table below shows the enrollment and growth for the past five years:

	1929-30		1930-31		1931-32		1932-33		1933-34	
	Enrol.	Av. Mem.	Enrol.	Av. Mem.	Enrol.	Av. Mem.	Enrol.	Av. Mem.	Enrol.	Av. Mem.
Auto Mechanics....	48	29.3	37	30.85	54	42.79	55	47.73	75	53.43
Electrical	38	32.5	37	32.64	37	31.12	34	31.30	41	32.92
Machine	31	25.7	38	24.95	16	12.96	22	16.49	22	15.56
Machine (Co-operative)	4	2.	5	1.	2	1.	2	1.	2	1.
Plumbing	39	29.1	29	23.76	31	24.28	38	25.79	43	34.69
Sheet Metal	18	16.3	18	16.67	21	15.38	19	14.32	23	16.78
Woodworking	68	47.1	56	40.99	53	36.57	60	48.03	68	54.62
Total Enrollment..	246		220		214		230		274	
Total Average Membership		182.0		170.86		164.10		184.66		209.00

The steady growth in the Trade School enrollment is the greatest tribute the community has made to the past Director of the school, Mr. Elijah P. Barrows, who retired in June after twenty years' service in the Trade School. All but four of the twenty years Mr. Barrows served as Director. When Mr. Barrows assumed the duties of Director of the school there was a total enrollment of less than 100. He witnessed a growth of almost 200%. Such a growth would not have occurred unless the school, under Mr. Barrows' direction, had met the needs of the young men who attended.

The teachers of the school were very busy during the year revising their courses of study in detail. It will be two more years before the detailed courses will be ready for every trade taught in the school. Since the school was opened there have been, of course, broad general outlines of the work to be covered, but it has taken a long process of trial and error to determine the material which should be covered in vocational schools. This is true not only in Quincy but of trade schools all over the country. Except for a few trades it is impossible to find a good detailed course of study in a public trade school.

Along with other schools the Trade School was obliged to decrease its costs because of lack of funds, due to the depression. In face of a steadily increasing enrollment the total cost was decreased to \$46,435.29. In the school year 1928-29, with an average membership of 193, the total cost was \$52,135.32.

The total cost was further reduced as follows:

Tuition for non-residents	\$12,595.00
Cash for products made in the school.....	775.96
Aid from the Federal Government.....	1,699.46
Aid from the State of Massachusetts.....	15,533.61
Miscellaneous receipts	101.87

Total receipts	\$30,705.90
Net cost to the City of Quincy.....	15,729.39

The actual cost to Quincy is thus only one-third of the actual amount spent. The net per capita cost for the year was \$75.26, which is much less than the per capita cost for secondary school education in Quincy and in the State as a whole.

The reduction in cost cannot continue without loss to the Trade School student. At the present time the few reference books and textbooks used in the school are in very poor condition, several of the departments need more tools to adequately provide for increased enrollment, replacement of some machines and equipment has been delayed beyond the point of economy, and in a few departments there are not sufficient supplies for the balance of the school year to do the work required to train the boys to their best advantage.

The Continuation School

The work of the continuation school was continued on a very similar set-up as for 1932-33, but confined wholly to a class for girls. The N.R.A. codes make it almost impossible for the boy under sixteen to get work during the hours the regular school is in session. The number of girls being employed in domestic service has remained nearly constant for the last two years and as economic conditions improve we may expect an increase in the number of girls employed as mothers' helpers and as full-time household servants.

The total enrollment for the past ten years is shown below:

	1924 1925	1925 1926	1926 1927	1927 1928	1928 1929	1929 1930	1930 1931	1931 1932	1932 1933	1933 1934
Boys	127	67	84	95	82	72	45	29	13
Girls	50	26	56	62	65	54	47	42	32	24
Total	177	93	140	157	147	126	92	71	45	24
Hours of Service				11860	7996	7148	6132	4056	2208	1524

Since the employment is confined at present to housework and child care, the school program is in turn limited to sewing, cooking, home nursing, and child care, classroom work growing out of the subjects just named, and civics and English. The girls apparently appreciate the school work, for the attendance has shown a decided increase. An attendance of 75 to 80% used to be the average.

During the past two years the per cent of attendance has steadily increased. In December, 1934, the per cent of attendance was 90.56%.

The total cost of this service for the school year was \$1,111.92, which was reduced as follows:

Aid from the Federal Government.....	\$77 10
Aid from the State of Massachusetts.....	517 41
<hr/>	
Total receipts	\$594 51
Net cost to the City of Quincy.....	517 41

Mentally Retarded Pupils and Special Classes

Over thirty years ago, Dr. Walter E. Fernald recognized the urgent need for greater understanding by the general public of the problem of mental deficiency. As a result of his efforts the state legislature made the establishment of classes for mentally retarded school pupils mandatory in 1919 and further strengthened the law in 1922 and again in 1931. While the importance of this problem is well recognized by those in close touch with the mentally retarded pupils and by students of criminology, the public as a whole has not given the matter the attention it has deserved. Even in as enlightened a community as Quincy the first class for mentally retarded pupils was not established until 1924. Since 1924 the growth in understanding by the teacher for the need of special classes has been great, but the classroom teachers and principals must do much more to educate the public in properly understanding the problem of mental retardation and its relation to crime.

On December 1, 1934, there were one hundred ninety-seven children in the public schools known by individual examination to be three or more years mentally retarded—an increase of twenty-two over the number actually known to be retarded in 1933. This does not mean that mental retardation is on the increase but that the teachers have been more adept in discovering the mentally retarded child. On December 1, 1934, one hundred sixty-five mentally retarded children were being taught in special classes by well-trained teachers as follows:

Adjustment classes in junior high school.....	19
Opportunity class for older boys.....	36
Opportunity class for older girls.....	16
Ungraded opportunity classes (six in number).....	94

During the school year 1933-34, one hundred ninety-three new children were referred to the various state clinics for mental examinations and twenty children previously examined were re-examined. Of this number, thirty-two were found to be normal mentally, seventy-three were dull normal, one hundred were three or more years mentally retarded and in eight cases the examination was incomplete. Five children were found to be so low in mental development that the clinic recommended the institutionalizing of the children. In but one case was the recommendation of the clinic accepted by the parents or guardians of the child.

Since the state schools for the feeble minded are overcrowded, with long waiting lists, little pressure is placed upon the parent unwilling to make application for his child because there are more

children to be served than there are places. Here again is a situation in which the school must educate the public so that increased facilities will be furnished to care for the feeble minded. The state legislature has provided the legal machinery to compel parents to properly educate these children, but many feeble-minded children who might be trained so as to be an asset to the community rather than a liability are allowed to grow up with little or no training, incapable of being self-supporting and often becoming public charges in later life because there is not sufficient room in the state institutions to care for those who need it.

In the Wrentham State School alone there are over six hundred children on the waiting list. If there was room in the state schools for all the feeble-minded children, the parent of a feeble-minded child who was unwilling to make proper provision for its care could be compelled to do so under the provisions of the school attendance law.

APPENDIX A
STATISTICAL DATA

1. Financial Statement for the Fiscal Year Ending
December 31, 1934

I. REGULAR AND STATE-AIDED SCHOOLS

Appropriated by City Council	\$1,195,844 90
Special appropriation for expenses incurred in 1933....	26,251 36
Additional appropriation—Maintenance "C.W.A."....	3,000 00
	<hr/>
	\$1,225,096 26
Less transfer to Fire Department.....	750 00
	<hr/>
Total available	\$1,224,346 26
Expended (Regular and State-Aided Schools).....	1,223,631 51

APPENDIX B

LISTS OF GRADUATES AND AWARDS

1. Quincy High School

(a) JANUARY, 1934

186

Sally M. Allan	Marion M. Donovan
Carl Ivan Anderson	Ruth Evelyn Dresser
Russell E. Anderson	Meredith E. Drew
William E. Anderson, Jr.	Robert C. Dunham
Samuel D. Asnes	Dolly E. Edmonds
Philip D. Balcom	Alden Eriksson
Lucia M. Baldassini	Edith Carolyn Fagerlund
Beatrice Irene Barton	Paul A. Fairfield
Clifford Bonsall Bean	Albert Niles Ferrell
Paul B. Black	Helen M. Ferrigno
Clare G. Bradley	Doris Althea FitzGerald
Joseph A. Broderick	Chester Forsythe, Jr.
Alfred Francis Brown	Louise Caroline Foster
Dorothea Isabel Brown	R. Phyllis Fox
Dorothy May Brown	Edith H. Franklin
M. Rita Burke	George Lindsay Fraser
Dorothy May Burr	Henry S. Galberg
Lois Calderwood	Dorothy L. Gardiner
Torrey Lang Capo	John Joseph Gauthier
Frances L. Carlson	Ophelia Gentilucci
Viola May Carter	Leonora Ann Gioncardi
Doris Winifred Christensen	Isabella A. Giovannangeli
Evelyn Truth Christine	Marion Louise Golbranson
Corinne Louise Ciavardini	Sven L. Goranson
Roberta Ethel Clark	Lillian Beatrice Goss
William Joseph Coleman, Jr.	Muriel Evelyn Goss
Cabi Comoletti	Dominic A. Grazio
Margaret Mildred Connor	Phyllis E. Grocott
John Richard Cooke	William Allen Gruell
Marguerite Loretta Corcoran	A. Eleanor M. Hall
William Arthur Corner	Linnea B. Hallgren
Russell Allen Countway	Frank R. Hanson
Jefferson W. Craddock	Audrey E. Harcourt
M. Irene Crotty	Robert Sargent Harper
Ruth Merriken Cummings	Wilton M. Harvey
Sidney Cutler	Helen E. Hathaway
Andrew Dahlquist	Lempi Heikkinen
Edwin Dalziel	Alfred H. Henderson
Fred G. Dan	Margaret Higginbotham
Stanley Goodwin DeBoer	Donald Oliver Hill
Tina DeCross	Robert Hofferty
Joanna Therese DeLuca	Helen E. Hoglund
Doris Roberta Dennison	Doris E. Holmgren
Elba M. DeTroia	Elmer Ellsworth Hussey
Leo DiBona	Frank N. Johnson
Margaret M. Dolan	John Elmer Johnson
Phyllis L. Donahue	Oliver John Kangas

Alfred Adams Keith
 Dorothy C. Kelly
 John King
 Sylvia V. Knuttunen
 Ruth J. Koeller
 Erna Marie Koss
 Arthur Joseph Lemon
 Robert Lewis
 Paul E. Lyons
 James McClelland
 Helen Marie McDonald
 Thomas L. McKenna
 E. Louise MacKenzie
 Edwin P. MacLeod
 William Joseph MacMullen
 Mary Claire McNamara
 Nelsie A. Mainhall
 Richard J. Maki
 Annie Frances Maloney
 Joseph A. Marchesiani
 Angeline Marini
 Marion Kimble Marr
 John F. Metherall, Jr.
 Chester P. Moody
 Edna M. Morris
 Mary F. Morrissey
 Angelena Moscone
 Ruth Munter
 Blanche M. Murphy
 Edward Murphy
 Antoinette R. Napoleon
 Margaret Norling
 Milton W. Norling
 Edward J. Norton
 Toivo Armas Nousio
 Paul O'Connell
 Jean Claire O'Neill
 Walter H. Ordway, Jr.
 Helen Irene Osgood
 Helen Margaret Ostrom
 Elizabeth Marie Paragallo
 Irving Bruce Patten
 William Seccombe Patten
 Chester W. Patterson
 Spencer M. Peel
 Marjorie Agnes Peterson

David L. Pinel
 Charles Ponti
 Douglas John Power
 Sigrid Pullman
 Alice Irene Reid
 Donald James Robbie
 Barbara L. Robinson
 Edwina I. Robinson
 John S. Rogers, Jr.
 Myrtle A. Rood
 Mary Katherine Rooney
 Robert Gordon Rosewell
 Mildred E. Rowe
 Leia Claire Rusconi
 Adela Salorio
 Olive Sansom
 Eleanor Frances Sawyer
 Herbert Charles Sayles
 Laura C. Sgobba
 H. Frances Shea
 James Shearer
 Albert Howard Smith
 Ilene Grace Smith
 Margaret Smith
 James William Smollett
 Charlotte Eva Spear
 Aloysius Sprunk
 Eleanor Virginia Spadorcia
 Alfred Byron Starratt
 Elsie Bertha Stearns
 John Livingston Tarr
 R. Corinne Patricia Taylor
 Jean Miller Templeman
 Margaret Crawford Templeman
 Lincoln H. Titus
 Thurl Wilson Tolman
 Christine Bainbridge Uzzell
 Aune Kyllikki Wehter
 Allan William Henry Whitelaw
 Jack Lawrence Widdop
 Ruth Wiley
 Doris Eleanor Williams
 Pearl Corrinne Williams
 Russell Williams
 Dorothy F. Wilson
 Elsie Elenn Wuolle

3. Trade School

JUNE, 1934

32

Auto Mechanic Department

Hubert Lewis Balboni
Dino J. Bini
Vincenzo Ralph Campitelli
Raymond John D'Angelo
Domenic Ralph Della Barba
Thomas W. Lloyd

James Francis Lyons
Leonard A. McDonald
Norman S. Munroe
John Roberts
George Simon
Benjamin Venuti

Cabinet Making Department

Harry Souther Jason

Vincent Lawrence Galvin

Electrical Department

William Penniman Berry
George Jeremiah Frazier

Harold James Hatch
Thomas Albert Smith

Machine Department

John F. Better

Robert F. Fenton
John Milewski

Pattern Making Department

Earl David Anderson
Ernani Walter Bizzozero

John Peter Bizzozero
Bernard B. Gerry, Jr.
Mario Serafini

Plumbing Department

Edward George Davies
Charles M. Garabedian
Joseph Francis Hansen

William J. Leahy
Charles Augustus Tanger
John Leonard Tanger
William Griffith Ward

Sheet Metal Department

Romeo J. Chiacchia

Dominic Gentile
Francis Anthony Nigro

4. Graduation Awards

JUNE, 1934

In the Quincy High School the following awards were made:

Washington and Franklin Medal for Excellence in American History to Thomas Evans.

Wollaston Woman's Club scholarships to Margaret Higginbotham and Lorinda A. Roberts.

Quincy Women's Club scholarship to Virginia C. Viner.

L'Eco Club scholarship to Elaine Vanelli.

Jewish Scholarship Club of Quincy scholarship to Milton Biller.

Quincy High School Alumni scholarship to Thomas Evans.

The Quincy Women's Club prizes for the boy and girl, who in the opinion of the faculty and their class had contributed most to the school, to William A. Hurley and Pauline A. Wheble.

The graduating class presented to the school a gift of \$150, which will be used to start a scholarship fund.

In the North Quincy High School the following awards were made:

Washington and Franklin Medal for Excellence in American History to Noyes Farmer.

Atlantic Woman's Club scholarship to Joseph Watson.

Quincy Women's Club scholarship to Hazel Borne.

\$5.00 honorary award to Arthur Nelson.

\$5.00 honorary award to Mary Hughes.

APPENDIX C

APPENDIX D

School Committees and School Calendar for 1935-36

1. SCHOOL COMMITTEES—1901-1935

1901

Hon. Charles H. Porter, <i>Chairman</i>	Mr. Frederick H. Smith
Dr. Nathaniel S. Hunting	Miss Mabel E. Adams
*Mr. Charles F. Merrick	Dr. Thomas J. Dion
*Mr. James H. Churchill	Dr. Wellington Record
Dr. Henry C. Hallowell	Dr. Frederick J. Peirce
*Mr. Merrick resigned September 24, and Mr. Churchill was elected to fill the vacancy October 7.	

1902

Hon. Charles H. Porter, <i>Chairman</i>	Miss Mabel E. Adams
Mr. James H. Churchill	Dr. Thomas J. Dion
Dr. Henry C. Hallowell	Dr. Wellington Record
Dr. Nathaniel S. Hunting	Dr. Frederick J. Peirce
Mr. Frederick H. Smith	

1903

Hon. Charles H. Porter, <i>Chairman</i>	Miss Mabel E. Adams
Dr. Henry C. Hallowell	*Rev. William J. Foley
Dr. Nathaniel S. Hunting	*Mr. James F. Burke
Mr. James H. Churchill	Dr. Wellington Record
Mr. Frederick H. Smith	Dr. Frederick J. Peirce
*Rev. William J. Foley resigned in August, and in September Mr. Burke was elected to fill the vacancy.	

1904

Hon. Charles H. Porter, <i>Chairman</i>	*Miss Mabel E. Adams
Dr. Nathaniel S. Hunting	*Mr. John L. Miller
Mr. James H. Churchill	Mr. James F. Burke
Dr. Henry C. Hallowell	Dr. Wellington Record
Mr. Frederick H. Smith	Dr. Frederick J. Peirce
*Miss Adams resigned in June, and in September Mr. Miller was elected to fill the vacancy.	

1905

Dr. Henry C. Hallowell <i>Chairman</i>	Mr. John L. Miller
Mr. James H. Churchill	Mr. James F. Burke
Dr. Nathaniel S. Hunting	Dr. Wellington Record
Hon. Charles H. Porter	Dr. Frederick J. Peirce
Mr. Frederick H. Smith	

1906

Dr. Henry C. Hallowell, <i>Chairman</i>	Mr. John L. Miller
Dr. Nathaniel S. Hunting	Mr. Charles H. Owens
Mr. Arthur W. Newcomb	Dr. Wellington Record
Hon. Charles H. Porter	Mr. John A. Duggan
Mr. Frederick H. Smith	

1907

Dr. Nathaniel S. Hunting <i>Chairman</i>	Mr. Dexter E. Wadsworth
Mr. Arthur W. Newcomb	Mr. Charles H. Owens
Dr. Edward H. Bushnell	Dr. William G. Curtis
Mr. Frederick H. Smith	Mr. John A. Duggan
Mr. John L. Miller	

1908

Dr. Nathaniel S. Hunting <i>Chairman</i>	Mr. John L. Miller
Mr. Arthur W. Newcomb	Mr. Charles H. Owens
Dr. Edward H. Bushnell	Dr. William G. Curtis
Mr. Dexter E. Wadsworth	Mr. John A. Duggan
Mr. John J. O'Hara	

1909

Dr. Nathaniel S. Hunting <i>Chairman</i>	Mr. John L. Miller
Dr. Edward H. Bushnell	Mr. James F. Burke
Mr. Arthur W. Newcomb	Dr. William G. Curtis
Mr. Dexter E. Wadsworth	Mr. Herbert S. Barker
Mr. John J. O'Hara	

1910

Mr. John L. Miller, <i>Chairman</i>	*Mr. John D. Mackay
Dr. Nathaniel S. Hunting	Mr. John J. O'Hara
Mr. Arthur W. Newcomb	Mr. James F. Burke
Dr. Edward H. Bushnell	Dr. William G. Curtis
*Mr. Dexter E. Wadsworth	Mr. Herbert S. Barker
*Mr. Wadsworth died April 7, and Mr. Mackay was elected May 16.	

1911

Mr. John L. Miller, <i>Chairman</i>	Mr. Arthur B. Foster
Dr. Nathaniel S. Hunting	Mr. James F. Burke
Mr. Arthur W. Newcomb	Dr. William G. Curtis
Dr. Edward H. Bushnell	Mr. Herbert S. Barker
Mr. John D. Mackay	

1912

Mr. John L. Miller, <i>Chairman</i>	Mr. Arthur B. Foster
Dr. Edward H. Bushnell	Mr. Joseph H. McPherson
Dr. Nathaniel S. Hunting	Dr. William G. Curtis
Mr. Arthur W. Newcomb	Dr. Daniel A. Bruce
Mr. John D. Mackay	

1913

Mr. John L. Miller, <i>Chairman</i>	Mr. Arthur B. Foster
Dr. Edward H. Bushnell	Mr. Joseph H. McPherson
Dr. Nathaniel S. Hunting	Dr. William G. Curtis
Mr. Arthur W. Newcomb	Dr. Daniel A. Bruce
Mr. John D. Mackay	

1914

Mr. John D. Mackay	Mr. Alfred O. Diack
<i>Chairman</i>	
Dr. Edward H. Bushnell	Mr. Joseph H. McPherson
Dr. Nathaniel S. Hunting	Dr. William G. Curtis
Mr. Arthur W. Newcomb	Dr. Daniel A. Bruce
Mr. Arthur B. Foster	

1915
